Петрова И.А, учитель английского
языка**

When it was built in 1911, it was the largest ship in the world.

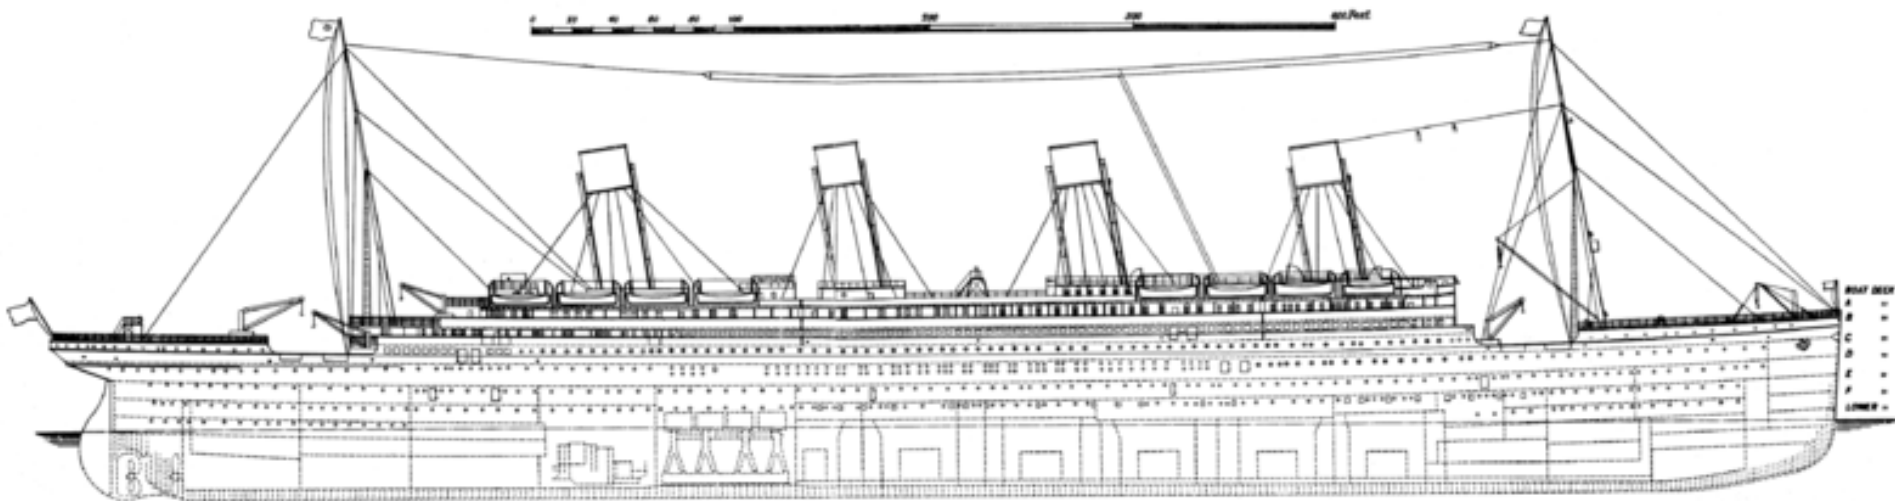

In the late 19th century and early 20th century, millions of people emigrated from Europe to America. At this time, the only way to get across the Atlantic was by ship.

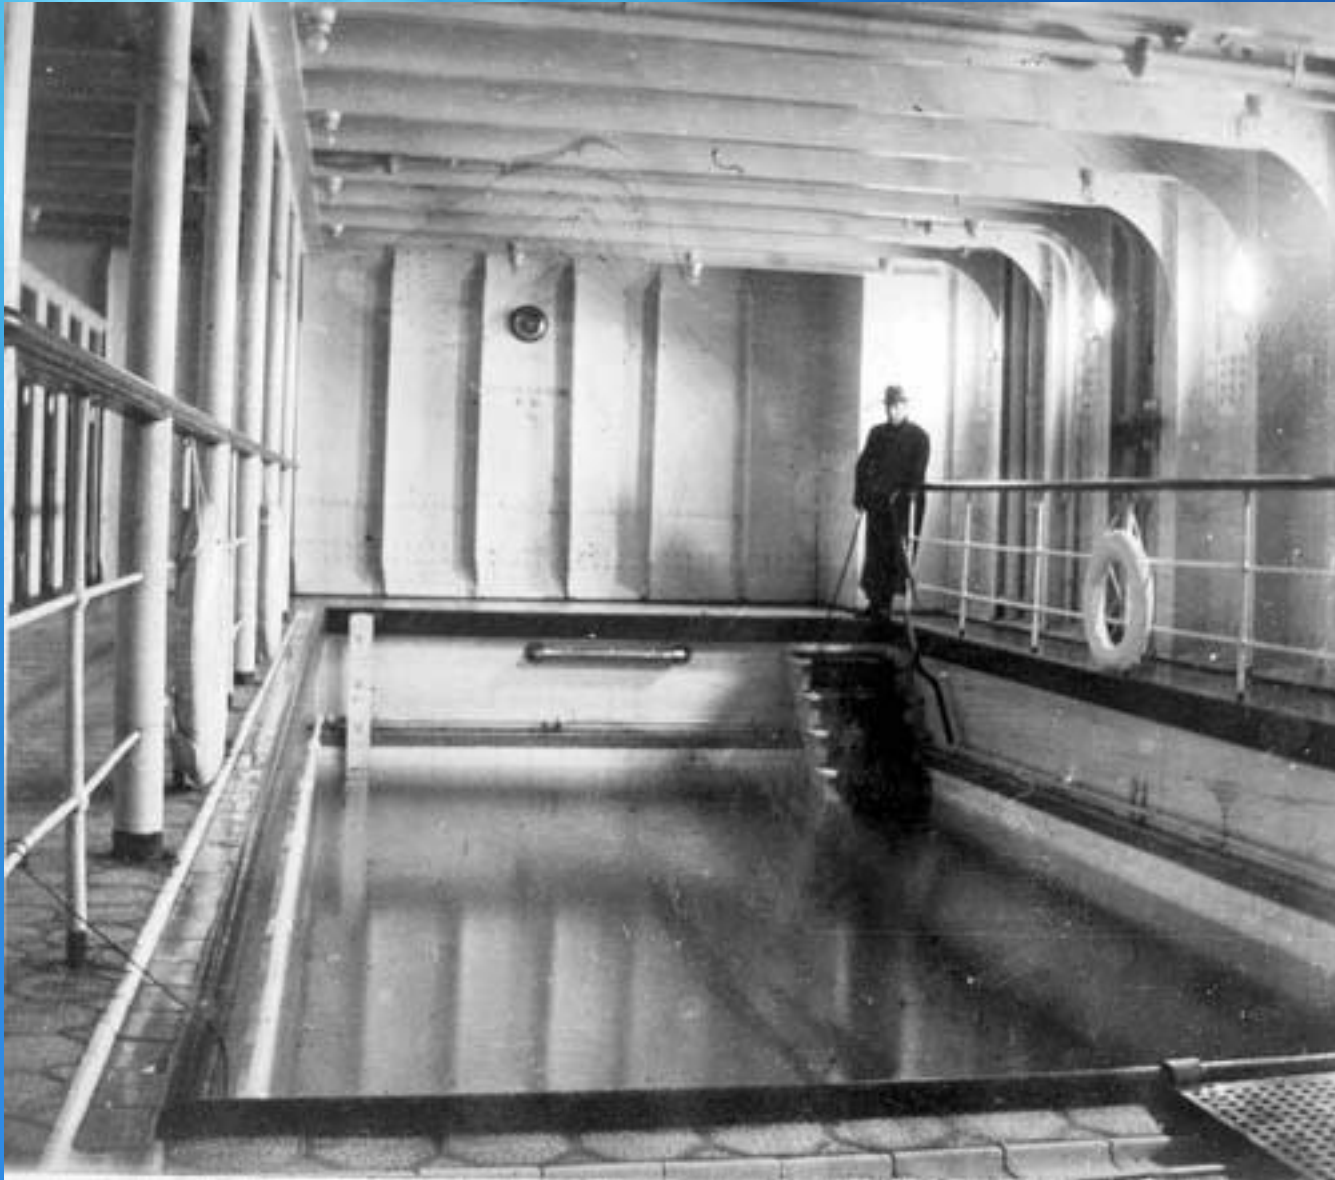

One ship company, White Star Line, decided to build the biggest and most luxurious ship in the world.

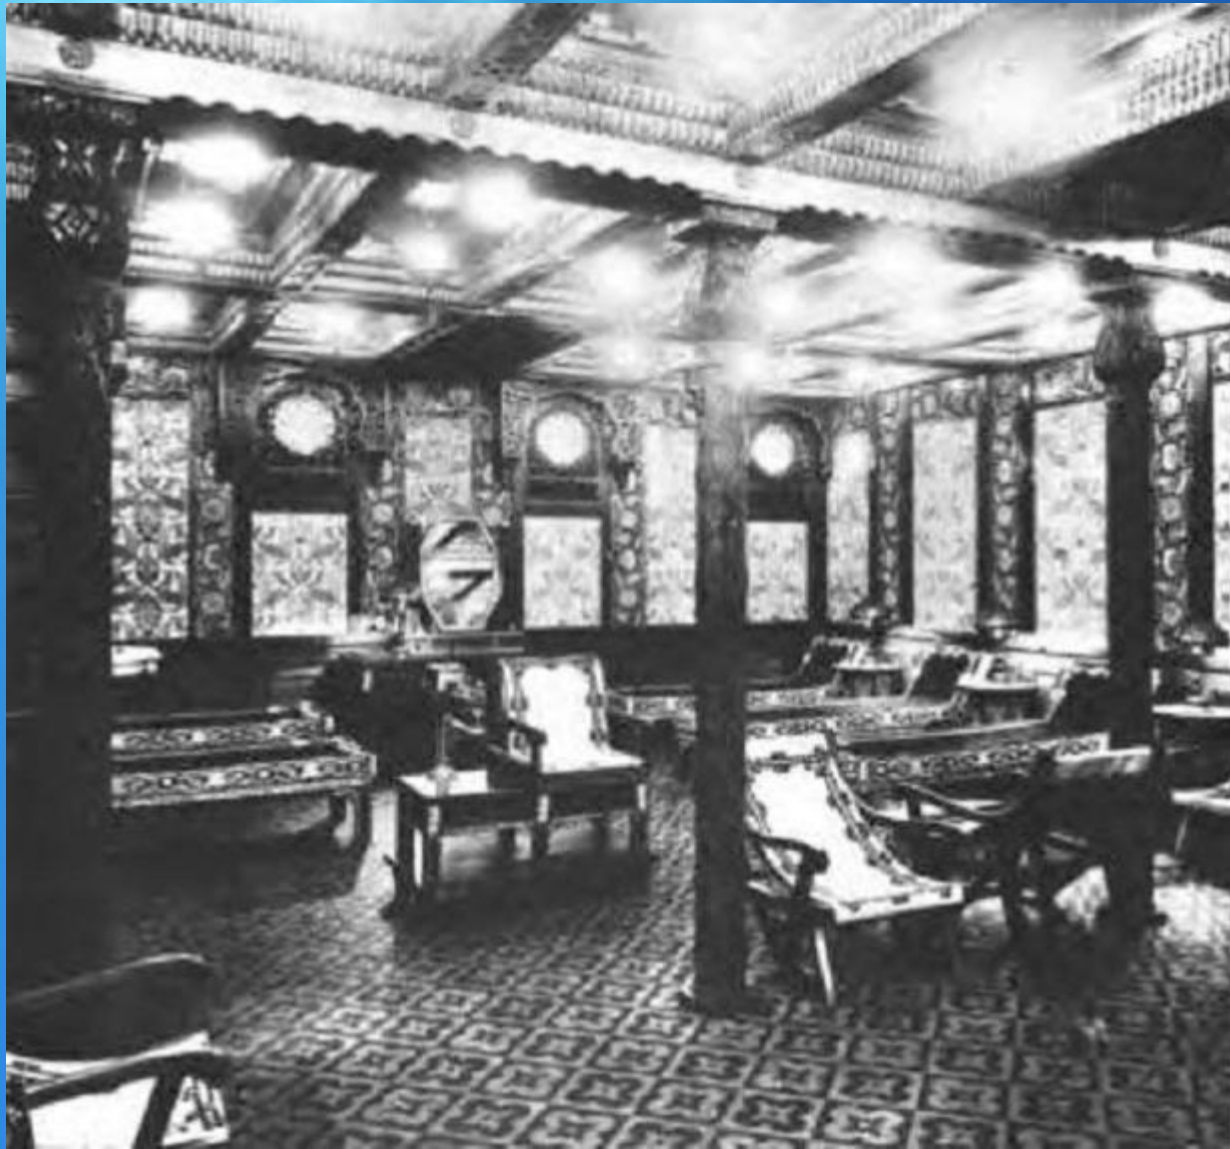

**The Titanic was 300 meters long
and had 9 decks.
In fact it was a kind of floating
palace!**

There was a swimming-pool

a Turkish bath

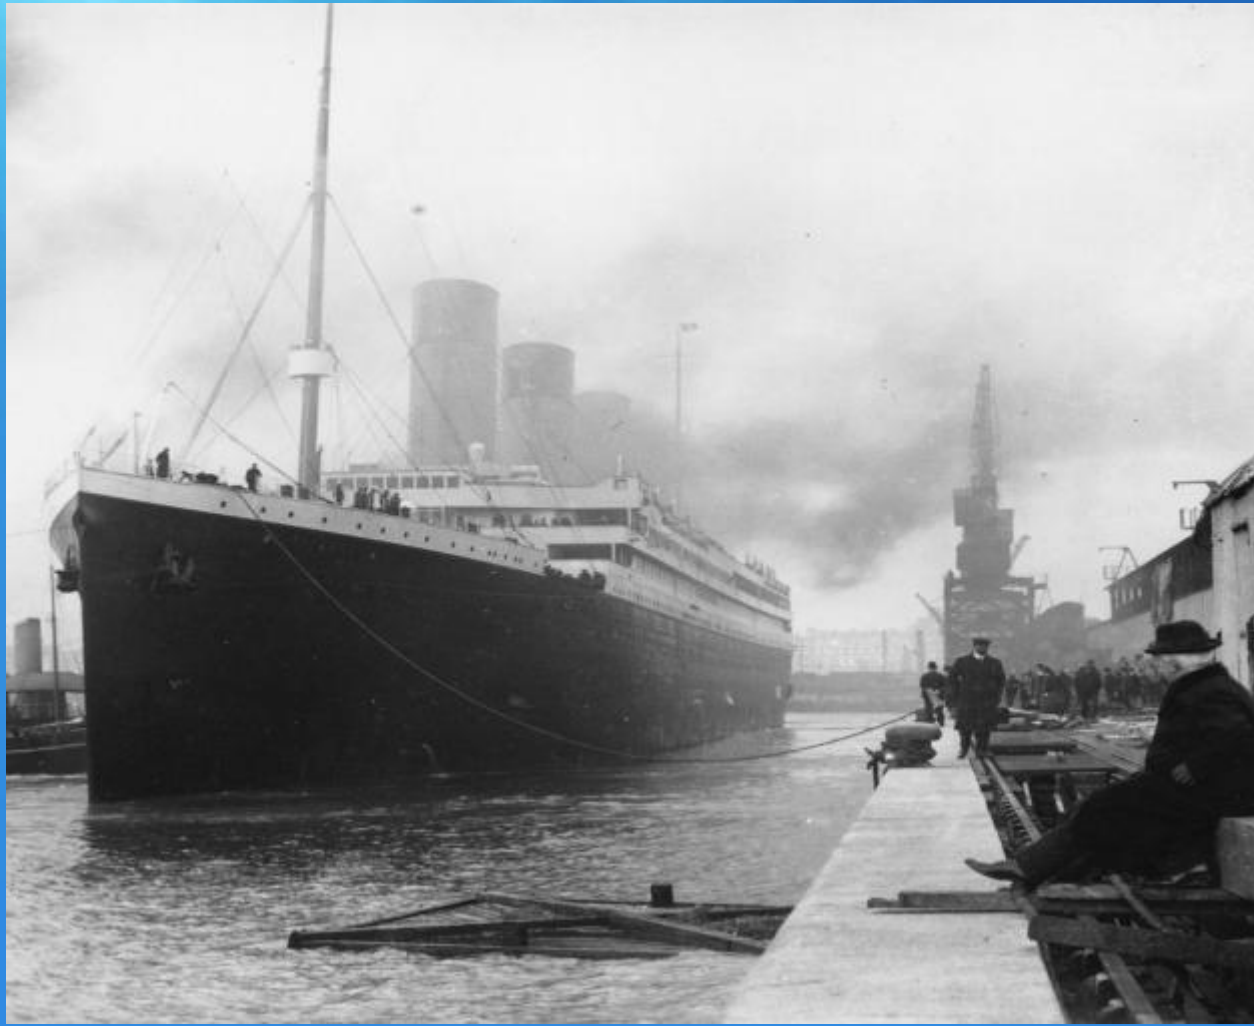

a luxurious dining room

a gym

The Titanic set sail from Southampton to New York on the 10th of April, 1912.

**It had more than 2,200
passengers**

Captain Smith and officers of the Titanic

and crew members on board.

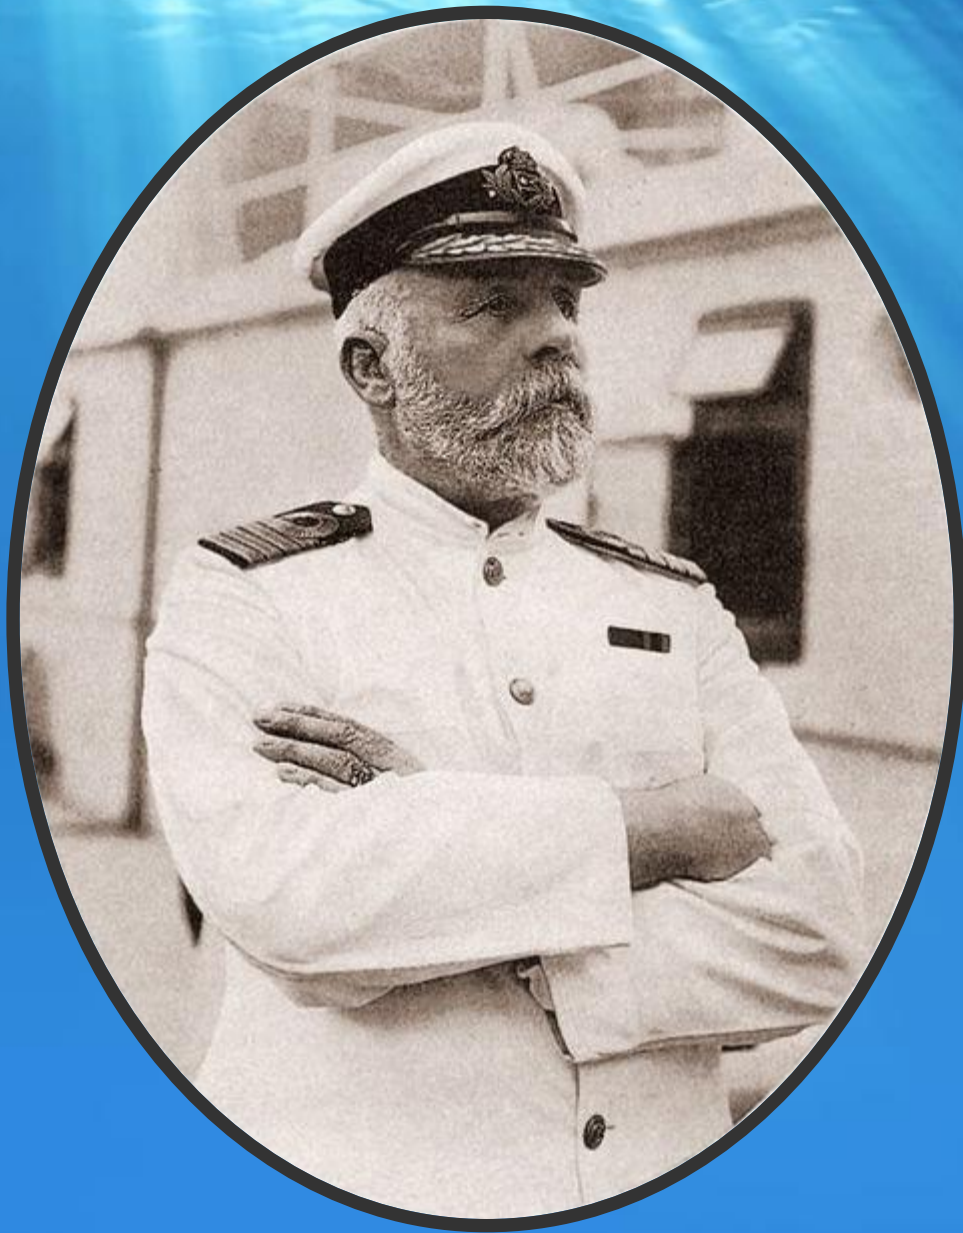

**On the 14th of April, the
Titanic received five ice
warnings but it didn't slow**

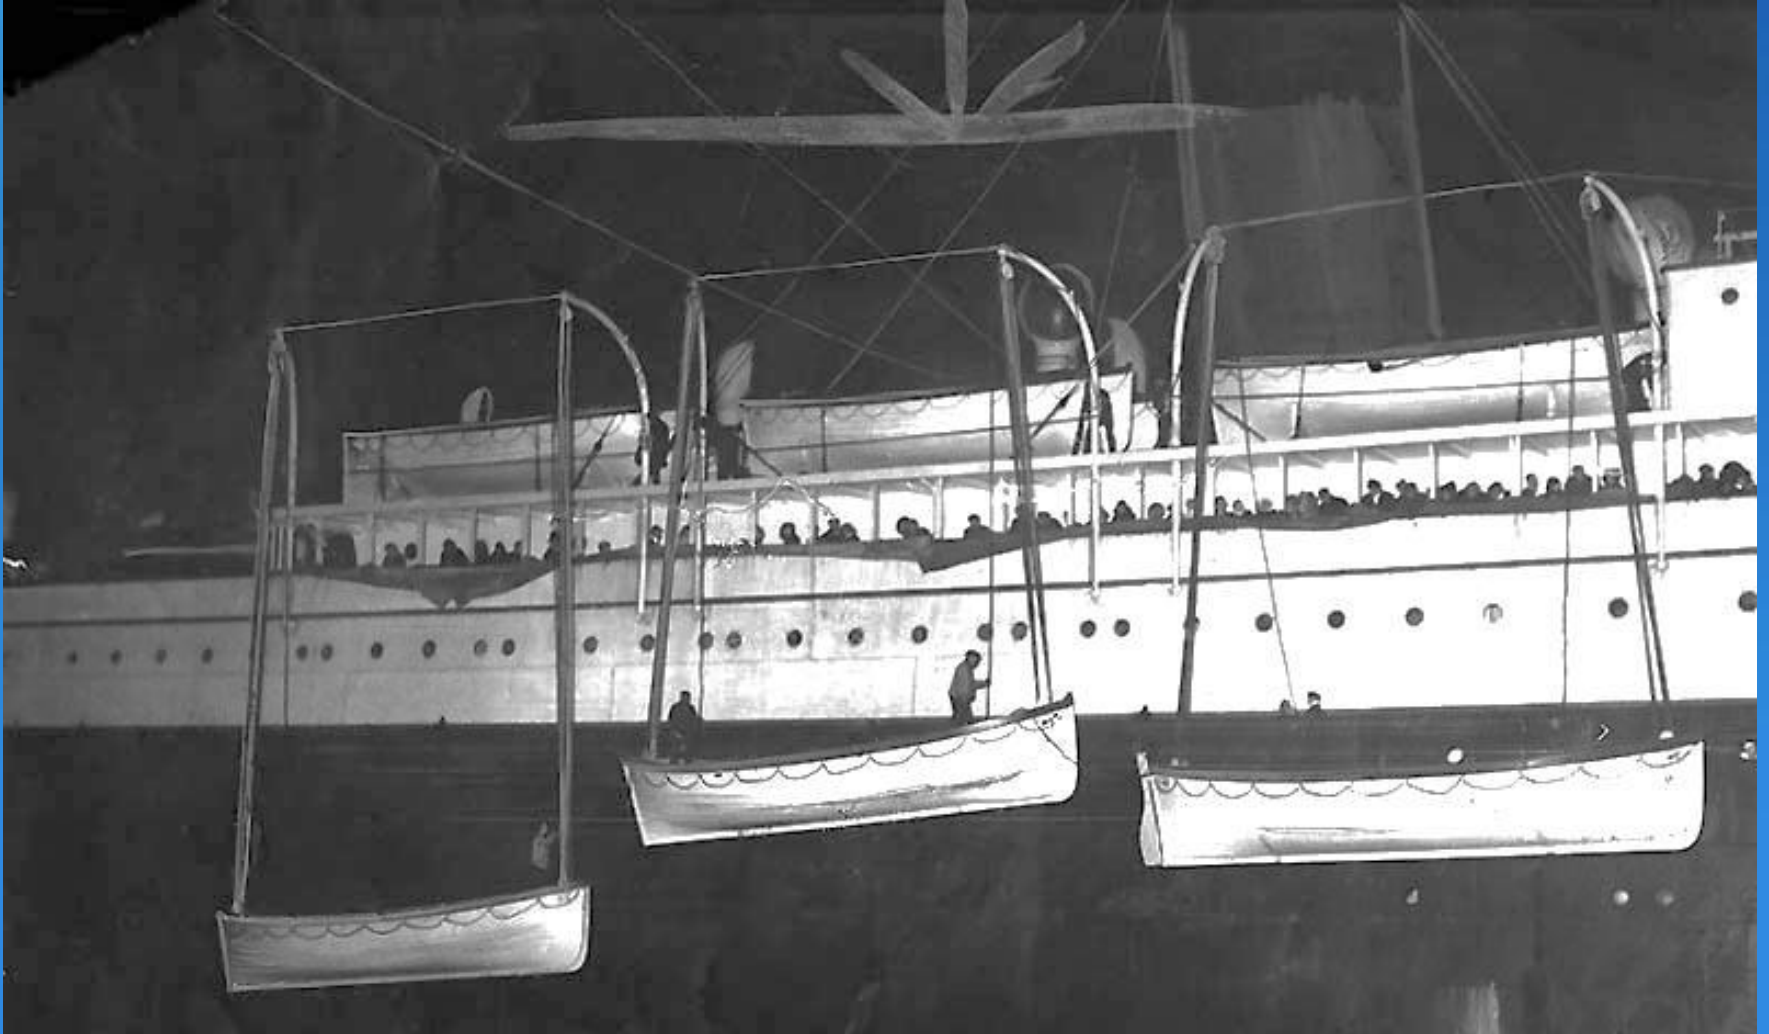

**The Titanic hit the iceberg.
On 15th April 1912 the Titanic
sank.**

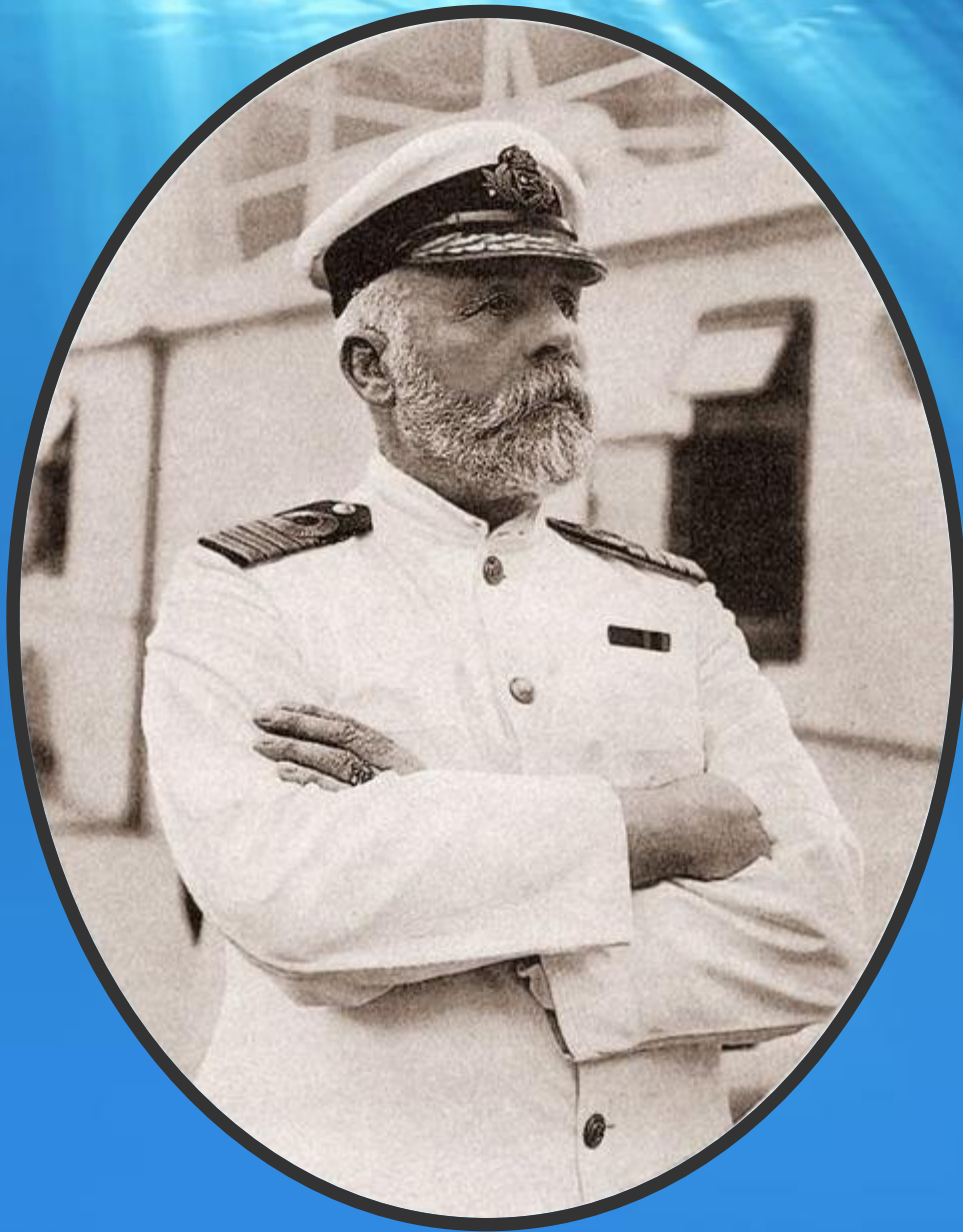

**The captain of
the ship,
Edward John
Smith, quickly
realized that
the
'unsinkable'
Titanic was
going to sink.**

There were more than 2,200 people on board but only 20 lifeboats.

**Captain Smith
gave the
order that
women and
children
should go
first.**

It took the Titanic two hours and forty minutes to sink.

HEROIC MUSICIANS OF THE TITANIC
who died at their posts like men ~ April 15th 1912

Hearer, my God, to Thee.

Or if an joyful wing cleaving the sky,
Sun, moon and stars forgot, upwards I fly,
Still all my song shall be,
Nearer, my GOD, to Thee, nearer to Thee.

* Names might stand up,
And say to all the world,
This was a man.
—Julius Caesar

One of the most famous stories of the Titanic is that of the ship's band. The eight musicians of the band gathered at the grand staircase and played jazz trying to keep passengers calm.

When news of the Titanic's disaster was known the first to try and help was Captain Arthur Rostron, the captain of the Carpathia.

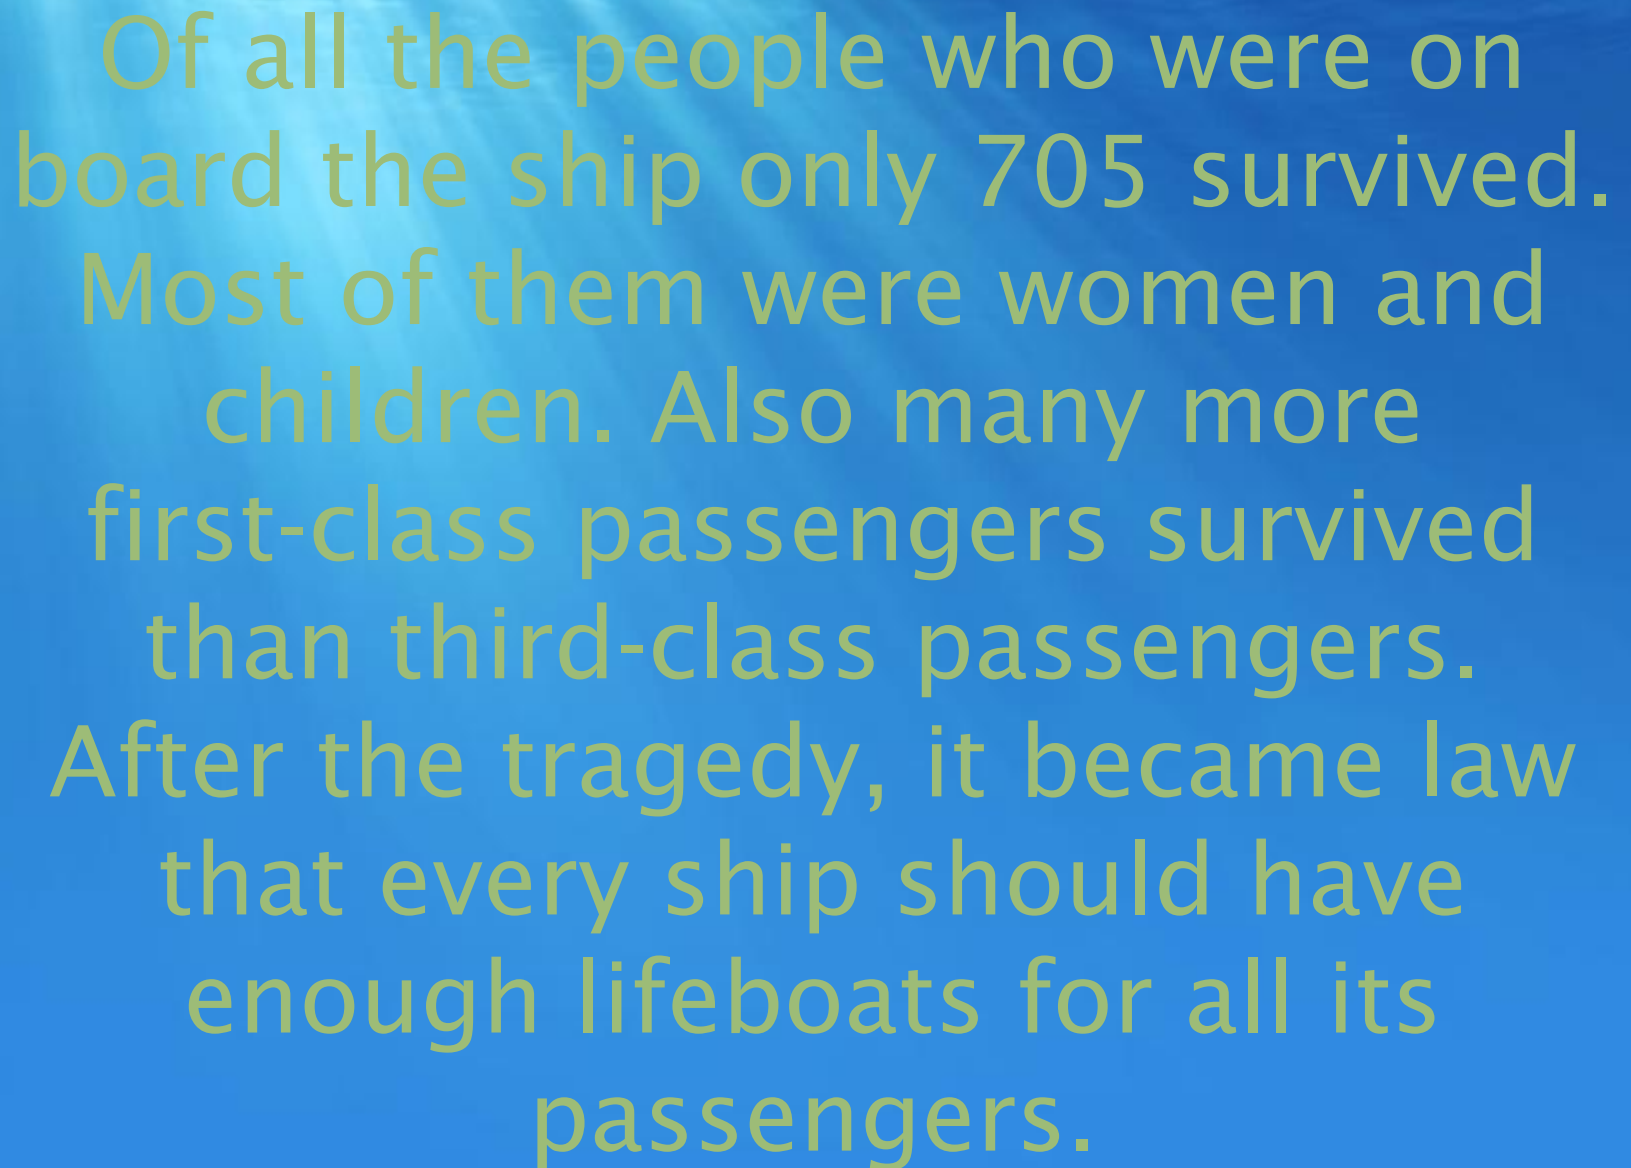

The Carpathia picked up the survivors from the lifeboats.

Of all the people who were on board the ship only 705 survived.

Group of rescued on Carpathia

The background of the slide is an underwater scene. Sunlight rays penetrate the clear blue water from the top left, creating a shimmering effect. The water's surface is visible at the top, with gentle ripples. The overall color palette is various shades of blue, from light turquoise to deep navy.

Of all the people who were on board the ship only 705 survived. Most of them were women and children. Also many more first-class passengers survived than third-class passengers. After the tragedy, it became law that every ship should have enough lifeboats for all its passengers.

An underwater scene with sunlight rays filtering through the water, creating a serene and bright atmosphere. The water is a deep blue, and the light rays are a lighter, shimmering blue. The rays originate from the top left and fan out across the frame.

Thank you for your attention!
