

PROS AND CONS OF SCHOOL

Dolgorukova Aleksandra, Karamova Elena, Lodeynov Maksim

School cons:

- When I went to the 10th grade, I thought that would be a lot of work and homework, but most of all I did not like the stuff that is written in some books is a real nightmare, so boring and not interesting that immediately discourages study the subject.

School cons:

- At school I do not like that there is no general form, but there is a free dress code. It is possible to introduce a single form for all pupils or enter free dress style.

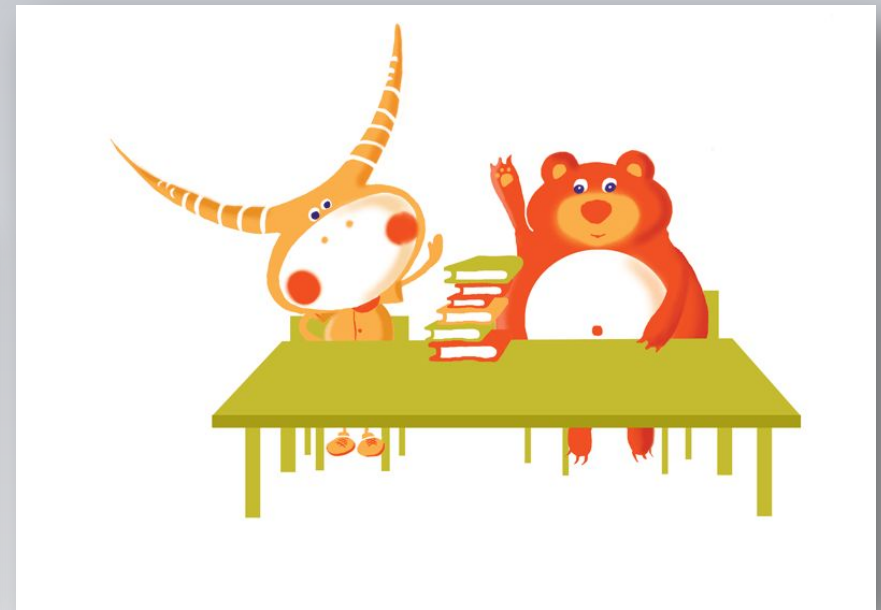

School pluses:

- At school I like to communicate with your friends.
- At school I like to learn new material and fix old.

School pluses:

- I have 2 more years to choose a profession and not miscalculate with the choice, the school we get more in-depth material that I like.

Thank you for watching!
