

# *Some of our projects*

# Södra Cell Värö Sweden

Fully joined 7 new dryers, main steam pipe line Dn 800, all steam pipe system from Dn15 to Dn 800 and all condensate system Main base metal by a groups 316/316L (UNS S31600 / S31603), Dn 15 to Dn 800

# *Södra Cell*

## *Värö Sweden*

Installation of furnace, installation of technological pipelines DN15-DN1200, installation of mechanical parts, Softwood pulp lines installation DN 158-DN300. New cooling tower montage jobs, drying machine fixing jobs, Extended soda recovery boiler fixing jobs.

# ***Stenungsund Sweden***

Stainless steel pipes from Dn 15 to Dn 500.  
Pipeline system updates.

# *ST1 Oil refinery*

## *Gothenburg Sweden*

Carbon steel pipes from Dn 25 to Dn 400. Steam, condensate, pressure air, petrol systems renovation and new pumps and platform installation

## *Metsä Fibre Äänekoski Finland*

Prefabrication and installation of stainless steel pipes. Dn65 to Dn1400. Wall thickness from 1.5 mm to 25 mm

# *BIO Plant*

## *Honkajoki Finland*

Fully modification and new installation of steam pipeline system, condensate system, glycol system and raw material pipe lines. Dn15-Dn 800. Carbon steel and stainless steel.

## *Sweden Vasterås*

Tanks repairing jobs (Change and repair of roof and body plates), Installation and fabrication of piping, steel structures and equipment

Main base metal by a group DUPLEX UNS S31803/  
S32205

Welding operations in accordance with ISO 3834-1

# *Munksund cell* *Sweden Piteå*

Installation of industrial furnace, installation of  
electric dust filter

Exhaust system pipe lines, DN 2800

## ***Sweden Luleå***

Renovation of industrial furnace, installation of  
gas pipelines

base metal by a group -CR Gr.1.2 ISO 15608 (EN  
10210-2, S355J2G3H)

Installation of electric filter.

base metal by a group -CR Gr.1.2 ISO 15608 (EN 10210-2, S355J2G3H)

Welding operations in accordance with ISO 3834-1

# SCA Östrand Sweden Timra

Weak Wash Storage Tank 1 installation

Centrate tank installation

Dregs dilution tank installation

Raw green liquor tank installation

Lime Milk Causticizer installation

Dregs tank installation

Wash water tank installation

Weak Wash Storage Tank 5 installation

# *Stora Enso*

## *Uimaharju Finland*

Installation and connection of gas, petrol, air, methanol pipelines to the main factory burner.

Dn 15 to Dn 600

# *Lipetskij Karton Lipetsk Russia*

Kiln renovation and support systems repair

# *International Paper Svetogorsk Russia*

## Frizzer and pipe lines renovation

Maintenance services, pipeline repairs, valve exchange works, tanks repairs, reactors plates repair works, sulphuric acid pipelines repairs, Installation of NaOH pipelines.

# ***NPP Olkiluoto-2 (2017)***

Heat exchanger demolition works, Heat exchanger installation, piping works,  
Reactor cooling system modernization

**SCA Östrand**

TRITON LT  
METAL WORKS

Fiber line, pipe line and valves installation.

Removal pipeline, Blastfurnacegas water blocks  
replacement (includes tanks and pipelines)  
Coke oven plants, Blasfurnace gaslines passing lines,  
Maintenance works

Ammonium and Sulphuric acid pipelines installation,  
According to G-module  
Sulphurid acid plants, gas pipeline Dn1800 modifications  
Teeterwaterline pump installation, pipeline modifications  
of new lines  
Mines, Yearly Turnaround works

# *Arctech Helsinki Shipyard (2014-2017)*

Ship building, Hull assembly
