

# Illustration example

I do not have a professional picture yet of my product and so I need to hire an artist that can draw the instructions in replacement of showing the instructions via pictures

This picture on the side is an example of our competitor's instruction material when they were just starting their business. The point of showing this is to give you an idea of the illustration job I am requiring.

## Use operation:

1. Fill the tank with fresh water.
2. Open slide valve.
3. Open seat cover.
4. Press piston pump for flush
5. Close slide valve

## Clean operation:

1. Open the latch.
2. Move away the fresh water tank.
3. Take the waste holding tank to emptying.
4. Replace the fresh water tank.
5. Close the latch.
