

ALEXEY IVANOVICH BAKHMUTSKY

Prepared by Natalia
Igumnova 10th grade
student

ALEXEY BAKHMUTSKY-SOVIET INVENTOR.

HE CREATED A MODEL OF THE WORLD'S FIRST
COAL COMBINE IN 1932.

THIS WAS THE FIRST MACHINE THAT PERFORMED NOTCHING, CHIPPING AND PILING COAL SIMULTANEOUSLY.

AFTER 7 YEARS, THE GORLOVSKY KIROV PLANT BEGAN MASS PRODUCTION OF SUCH COMBINES, HOWEVER-WITH MINOR IMPROVEMENTS. THESE MACHINES WORKED IN THE MINES OF THE DONBAS'S UNTIL 1941.

THANK YOU FOR YOUR ATTENTION
