

# Установка среды для работы на Python

# Установка среды для работы на Python

Установить интерпретатор Python (в Linux скорее всего установлен) -

<https://www.python.org/downloads/>

The screenshot shows the Python.org website interface. At the top left is the Python logo and the word "python" with a trademark symbol. To the right are a "Donate" button, a search bar with a magnifying glass icon and a "GO" button, and a "Socialize" button. Below this is a navigation menu with links for "About", "Downloads", "Documentation", "Community", "Success Stories", "News", and "Events". The main content area features the heading "Download the latest version for Windows" in yellow. Below the heading is a yellow button labeled "Download Python 3.8.5". Underneath the button, there are several lines of text with links: "Looking for Python with a different OS? Python for [Windows](#), [Linux/UNIX](#), [Mac OS X](#), [Other](#)", "Want to help test development versions of Python? [Prereleases](#), [Docker images](#)", and "Looking for Python 2.7? See below for specific releases". To the right of the text is an illustration of two yellow and white striped parachutes descending from the sky, each carrying a brown cardboard box. A large orange arrow points from the bottom left towards the "Download Python 3.8.5" button.

# Установка среды для работы на Python

При установке поставить флажок "Add Python ... to PATH".
