

MY HOBBY

The work performed by a student of the 103 group Danilova Vika
Teacher: Tsibakova Anna Vasilyevna

Hobby in our understanding

A hobby is an activity that is done in one's spare time for enjoyment.

Hobbies

The types of hobbies can be different:
gardening,
sports, cooking,
needlework,
collecting,
photography,
singing, painting,
games.

Not much about my hobby

My hobby is needlework, namely weaving with beads. I love doing this because it calms me down when needed. It turns out I combine business with pleasure

It is interesting that there are so many varieties of different beads. And due to this, the picture can turn out to be completely different and very interesting.

I don't know
where my
hobby will
take me, but I
love my hobby
and I'm not
going to leave
it anytime soon

**Thank You for
Attention!**
