

VLADIVOSTOK

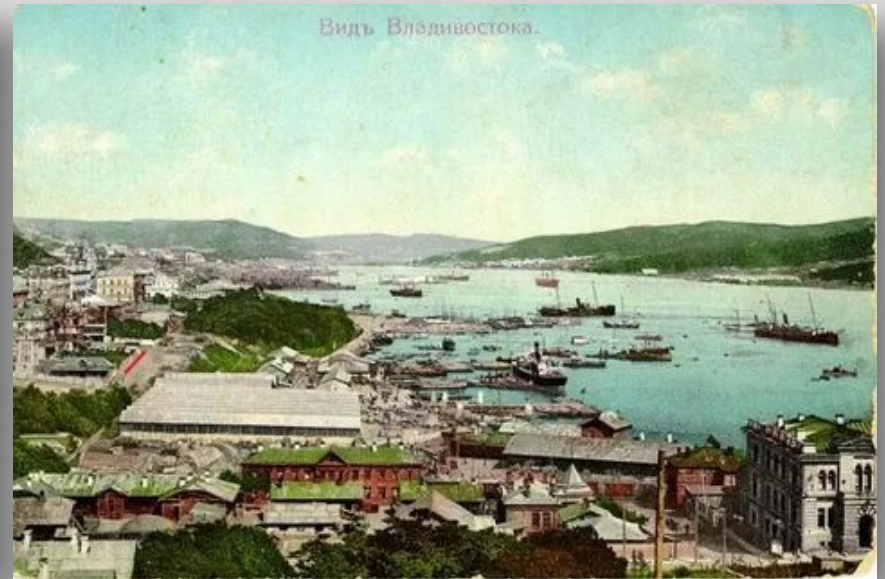

Performed by a first-year student Maltseva
Sofya

THE CAPITAL OF PRIMORSKY KRAI

The Vladivostok is the largest in Primorsky Krai and in the Russian Far East as a whole. It is an industrial, transport, scientific and cultural centre, and the largest port on the Pacific coast of Russia.

Vladivostok was founded in 1860.

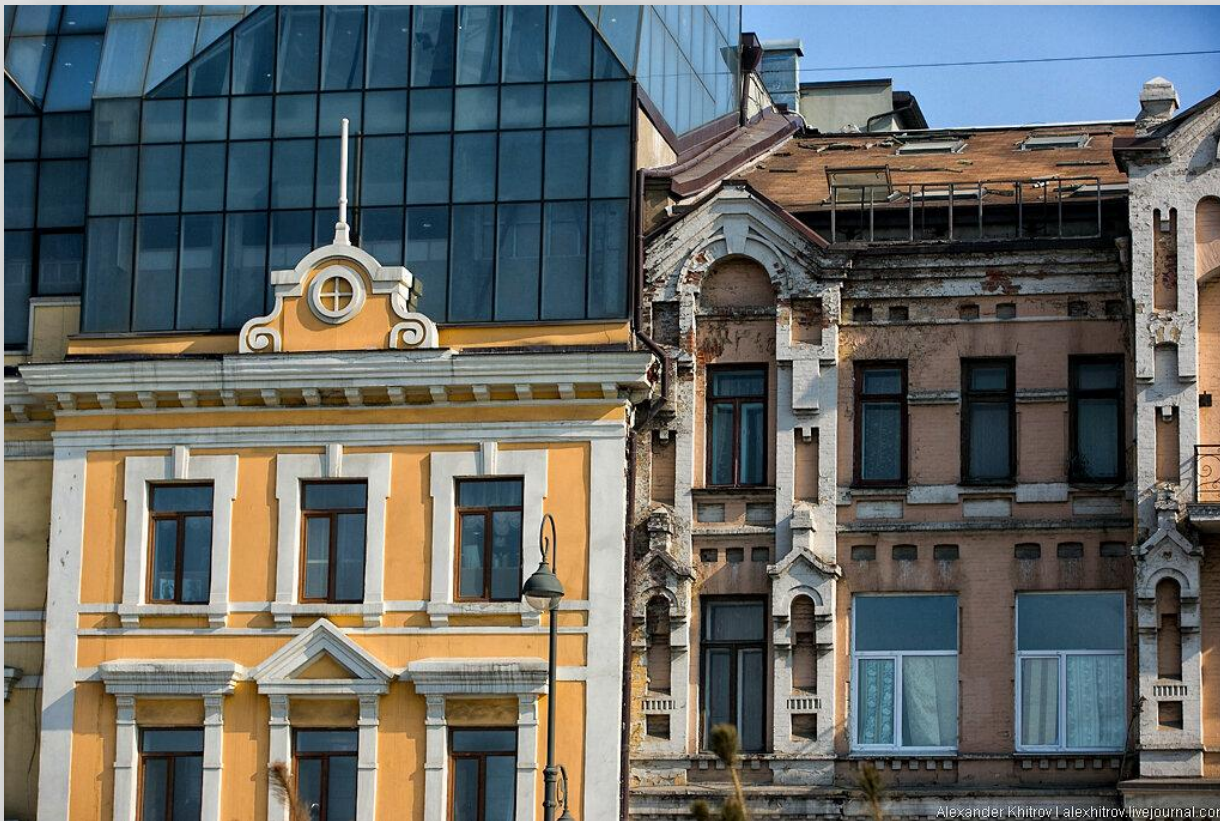

- Vladivostok occupies the entire southern part of the Muravyov-Amursky Peninsula and is washed by the waters of the Amur and Ussuri Bays. The city has about 20 islands within its borders. This city quickly became an important economic and political centre thanks to its proximity to sea trade routes and borders with China, Korea and Japan. Vladivostok is located at the junction of mainland Eurasia and the great Pacific Ocean. Ship repair and shipbuilding play an important role in industry.

VLADIVOSTOK IS A MAJOR HISTORICAL CENTRE OF PRIMORYE

- It has more than two hundred monuments. The city's architecture is a mix of old and new.

Vladivostok is actively developing international trade, scientific, cultural and sports contacts.

VLADIVOSTOK IS ALSO CALLED RUSSIAN SAN FRANCISCO

Vladivostok

San Francisco

ONE OF THE ATTRACTIONS IS THE BRIDGE OVER GOLDEN HORN BAY

The Golden Bridge is one of the five largest cable-stayed bridges in the world. It required 42 kilometres of cables: 192 cables, painted grey, are expected to last for at least 100 years.

The cables are the steel ropes that wind around the structure and make the Golden Bridge stable, strong and secure.

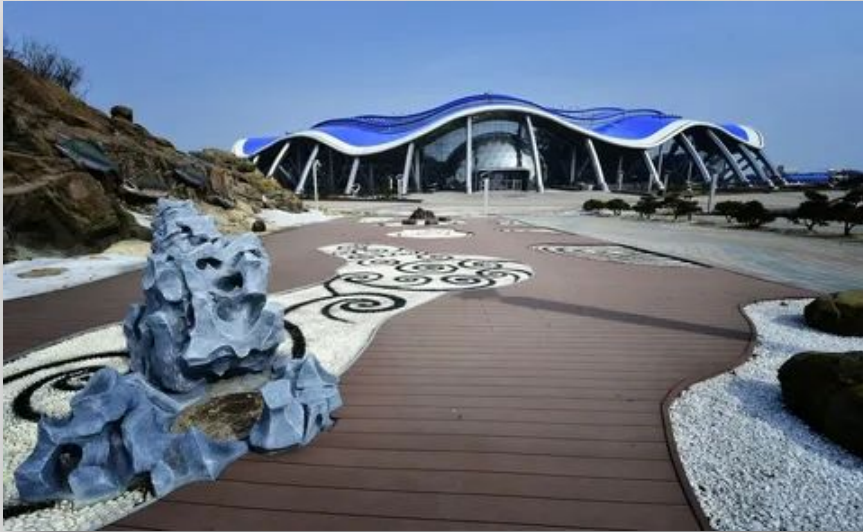

Nowadays, the Golden Bridge has become a kind of symbol of Vladivostok. This bridge connects the centre of Vladivostok with the outlying areas.

ANOTHER OF VLADIVOSTOK'S ATTRACTIONS IS THE SEASIDE OCEANARIUM, LOCATED ON RUSSKY ISLAND

In 2010, the city of Vladivostok was awarded the status "City of Military Glory". Over its 155-year history, the city has fully justified its name "Vladivostok" (to own the East).
