Чумакова Дарья 13ПХ

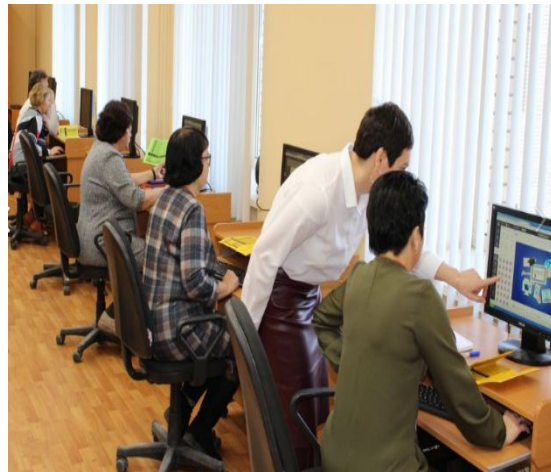

Our dear applicants! If you have not yet decided which profession you need, where you will work. The Volgograd College of Railway Transport, a branch of the Rostov State University of Railways and Communications, offers you training and a guaranteed job at the enterprises of Russian Railways.

Is a multidisciplinary, multifunctional professional educational organization with a long history and high rating on the Volga Railway - a branch of JSC Russian Railways. As part of its educational activities, the college has trained more than 16 thousand specialists for railway enterprises of the Russian railway network and enterprises of the Volgograd region.

For you,
modern
classrooms, the
latest
equipment,
fitness
equipment,
computers, an
electronic
library, a sports
and fitness
room.

Qualified teachers conduct training. Your practice will be organized at the enterprises of railway transport, and your earnings will allow you to be independent. In addition, having graduated from a technical school, you will enroll on a preferential basis at railway universities.

You will not be bored! We have nine circles, creative associations, the scientific community "Truth", 14 sports sections and groups. We are consistently the best in Russia - 3 place in the rating among 56 railway secondary vocational schools of Russia, 1 place in the VII student sports contest of technical schools and railway transport colleges in the department of ROSZHELDOR. Our training ground is the basis for training and advanced training of personnel of mass professions for all enterprises of JSC "Russian Railways" of the Volgograd region.

We are waiting for you at our college!
