As card is turning, light reflects off front of card.

Bridgerr logo b (the b with an eyebrow) is in middle of the card and has depth with hologram background.

As card is turning, begin light emanating from outside edges to bridgerr text

Centered bridgerr text logo lights up neon as card has fully flipped (Feel free to take a lighter version of our logo text and light that up or take liberties as necessary)

Light moves away from bridgerr text back into the motherboard graphic on the edges as card starts to turn away.

Center Text with "Genesis Member" on first line and "Lifetime Pass" on the second line.

Want to fill out card and ensure there isn't too much space between logo hologram at top and text at bottom. Also ensuring there is not too much space between Genesis member and lifetime pass text to edge of card

Center "bridgerr" logo text in middle
