IDEA #6

You think what  
we do is  
risky...no safety  
gear!

## HOW WE LEARN

### ALEX HONNOLD

The first person ever to climb the 3,000 foot, vertical El Capitan **without any safety gear** – one mistake and he DIES!

To overcome the challenging sections he **meticulously went over and over his moves**

It took **a year and a half to prepare for the free solo**. He climbed the mountain with a rope **around 60 times** and he rehearsed his moves for the challenging parts of the formation over and over again

WHERE THE MONEY REALLY IS

# The biggest winners have been in futures

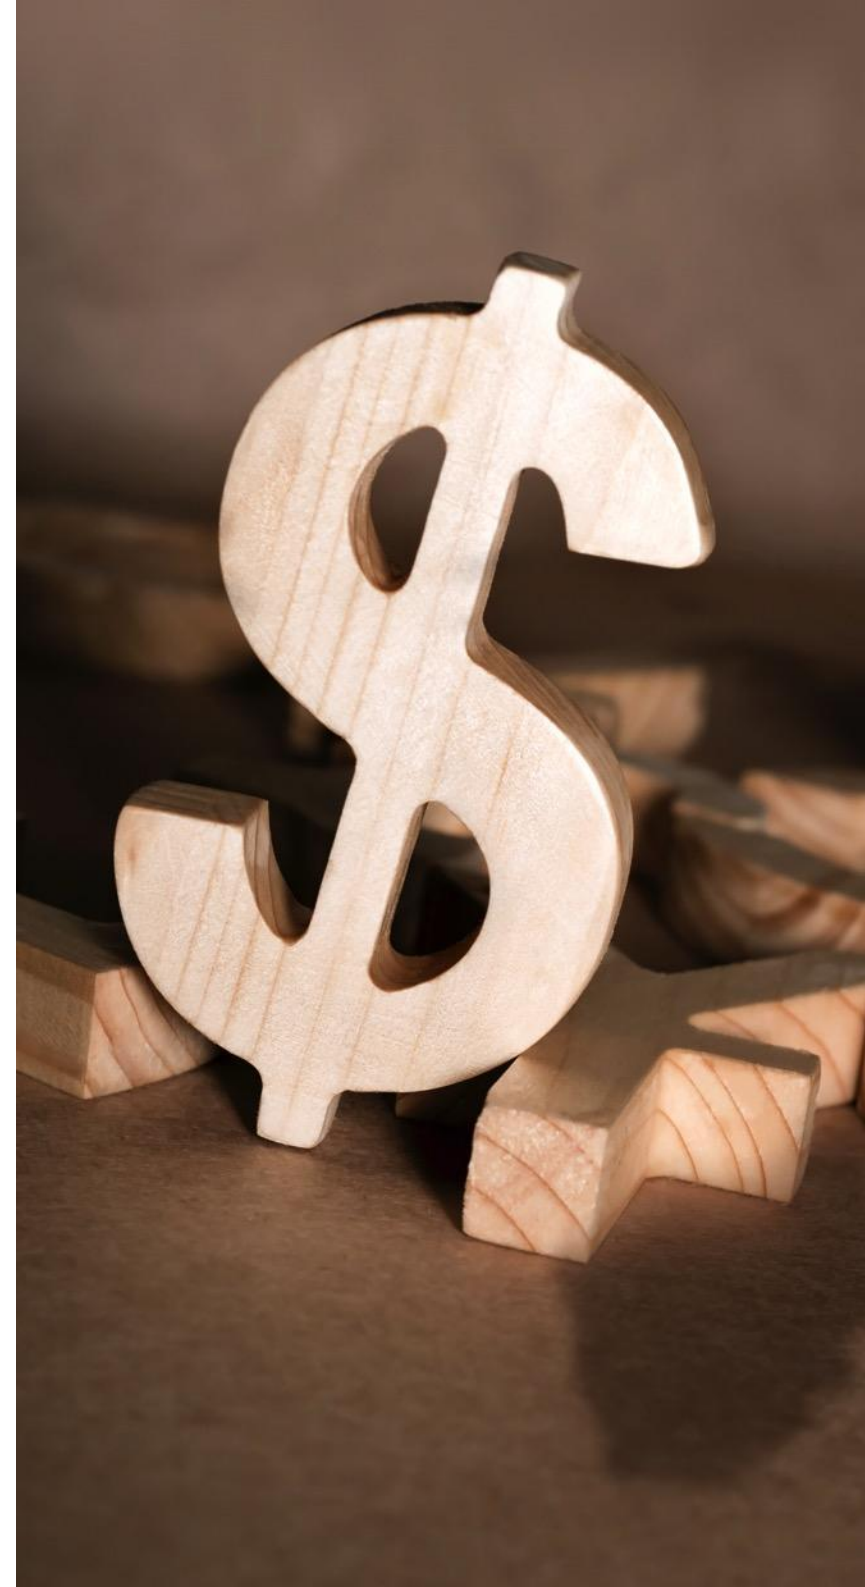

- then forex
- then options
- then stocks

Bitcoin is a bad investment

# Rent out your money

There are excellent high  
dividend paying stocks that  
yield 10% to 12% per year

no painting, fixing, mowing or collecting rent

## RENT OUT YOUR MONEY TO REITS

THE LAW IS ON YOUR SIDE

By law these  
stocks must, by  
law, dividend out  
90% of their  
earnings
