$$a : 0 = a$$

При делении любого числа a ,
не равного нулю, на само себя
получаем единицу.

$$0 : a = 0, \text{ при } a \neq 0$$

так как, $a \times 0 = 0$

Four decorative circles are arranged horizontally at the top of the slide. From left to right: a solid light purple circle, a white circle with a light purple outline, a solid light purple circle, and another white circle with a light purple outline. The text 'Задача 9 с.26' is centered over the second and third circles.

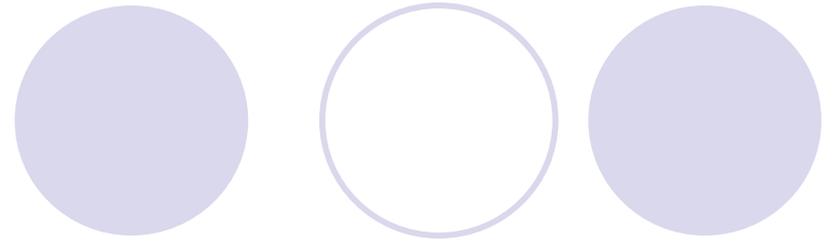

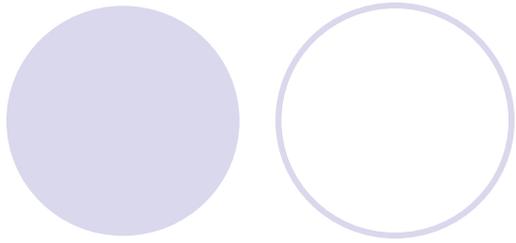

Задача 9 с.26
