

Ecological problems in our days

Our future depends only on us.

The rule of 3Rs

The question about the state of environment should worry everybody. Our health depends on its state. Environment is water that we drink, the air which we breathe. Caring about the world we care about ourselves.

People buy a lot of unnecessary things. Only buy what you really need and use all of it. Thinking about buying something new?
Try the 30-day rule – only buy it if you still want it 30 days after you first saw it!

We need to protect the natural materials.

Always switch off the lights when you leave an empty room.

Use light bulbs that save energy.

Save on paper. Try to cut down on the amount of paper you use. Use a computer and proofread your writing on the screen before you print it out. Use both sides of paper and then recycle it

**Our world has lots of litter.
Buy things with simple packaging
that can easily be recycled.**

**Let's plant trees.
Our future depends only on us.
Let's make it happy and bright.**

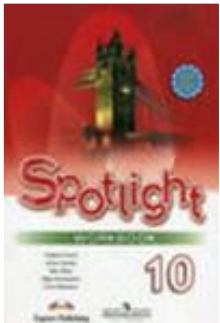

TESTS (ТЕСТОВЫЕ ЗАДАНИЯ)

Theme "Ecology"
10th form

ПО ТЕМЕ «ЭКОЛОГИЯ»
10 КЛАСС

- Kinds of pollution:
- Water pollution
 - Air pollution
 - Soil pollution
 - Noise pollution

1. Match the words to make up phrases. Put the letters in the correct order.

1. writing paper c)
2. vegetable peelings e)
3. compost heap d)
4. packed lunch a)
5. energy consumption b)
6. excessive packaging f)

2. Match the words to make up phrases. Put the letters in the correct order. There is one extra letter.

1. global warming **b)**
2. modern lifestyles **d)**
3. power stations **c)**
4. conservation crops **e)**
5. natural habitat **f)**

3. Guess the words and unscramble them.

Don't 1) **WASTE** fruit and vegetable material. Make a 2) **POSTMOC PEHA** in your garden. Then you will have good 3) **TILIREFRES** for your plants.

4. Guess the words and write them correctly.

I always switch off the **1) lights** when I leave an empty room. Besides, I use only light bulbs that save **2) energy**. Finally, I turn down the **3) heating** when it is warm in the room.

5. Guess the words and fill in the gaps.

- How can we use **the rule of 3Rs** to protect the environment?
- First, we should **1) recycle glass**, paper and plastic. More than that, it is essential that we **2) reuse old boxes**, jars and bottles. Next, we should do our best to **3) reduce energy** and paper consumption, rubbish, the amount of water we use.

6. Complete the sentences using the best answer.

We care about the environment so we have come **1)** up with some practical ways of protecting it:

- Always switch **2)** off the lights and the electrical appliances when you don't need them.
- Turn **3)** down the heating and put **4)** on warmer clothes if you cold.
- Think carefully how you can reuse old things before you throw them **5)** away.
- Try to cut **6)** down on packaging and paper.

1. **A** on

B up

C to

2. **A** off

B on

C at

3. **A** on

B up

C down

4. **A** up

B out

C on

5. **A** away

B into

C about

6. **A** on

B down

C down on

7. Choose the right answer

-They say you have an environmental awareness day at school today. What does it mean?

-It's a special day when we learn what we 1) should do to protect the environment. You know, how we 2) can help to save the planet.

-That sounds interesting. What do you do?

-Well, for a start, everybody 3) should walk or cycle to school to save energy. And we 4) must make sure we don't waste energy.

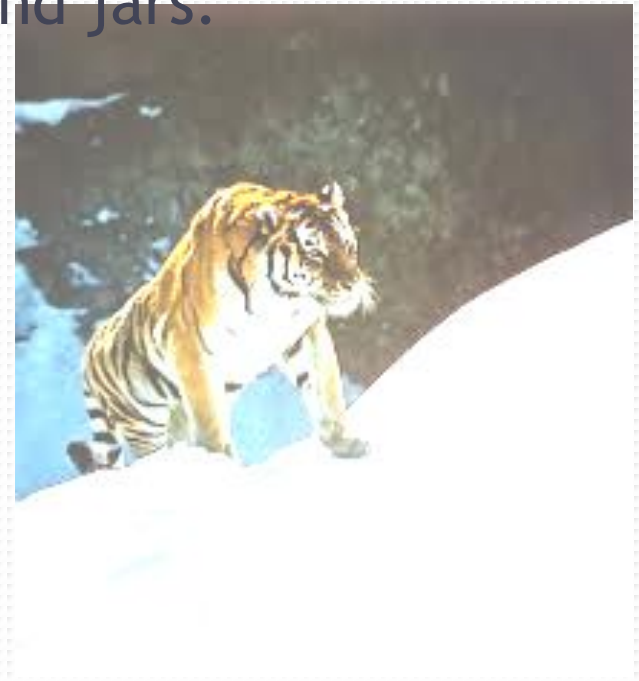

-I see. Besides, we 5) should recycle paper, glass and plastic.

-You are right. I think you 6) had better have an environmental awareness day at your school, too.

8. Make up tips from the following words

1. You should try to cut down on energy consumption.
