Изобразительное искусство

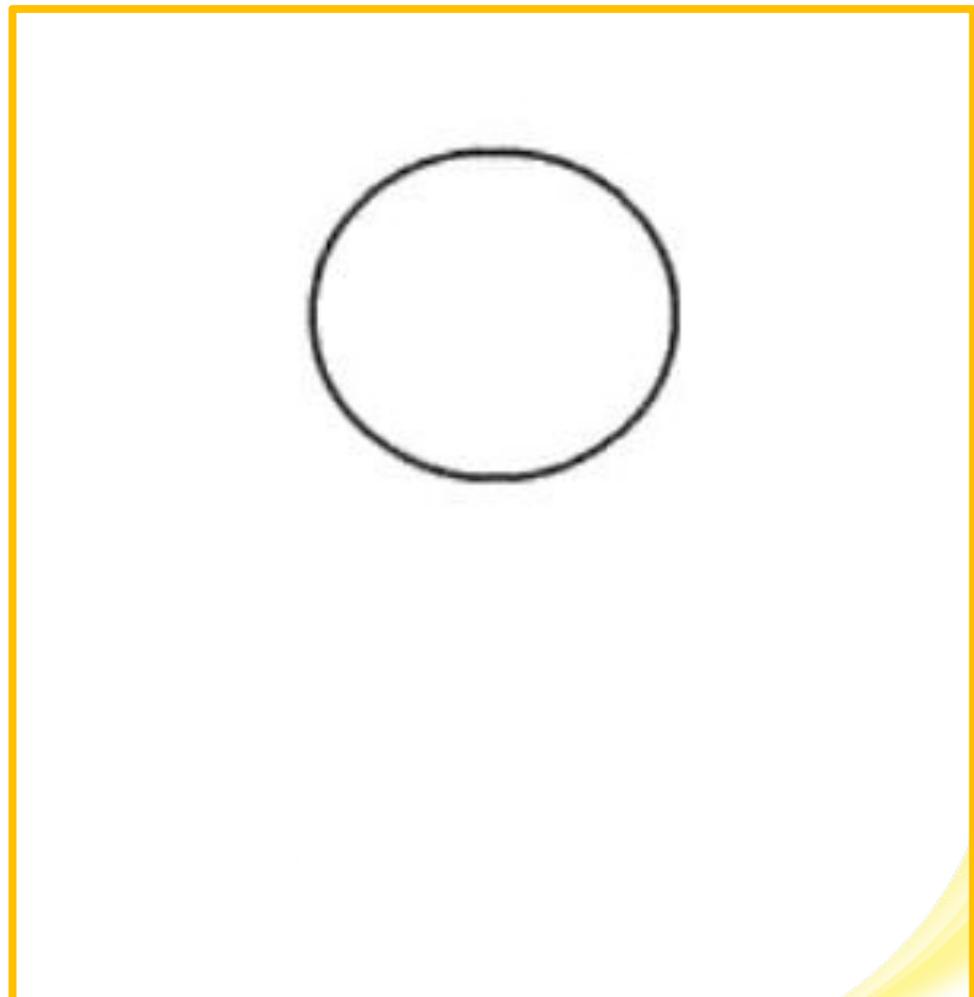

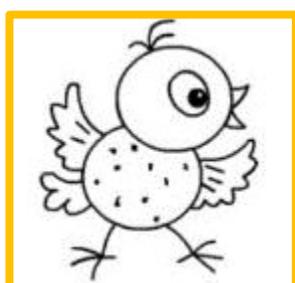

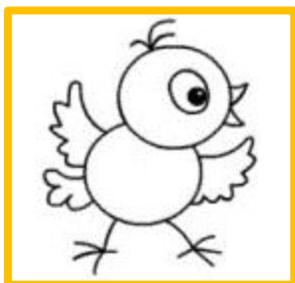

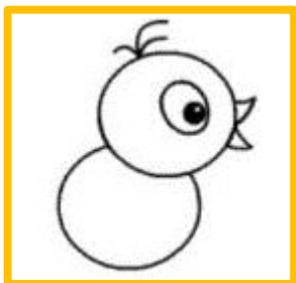

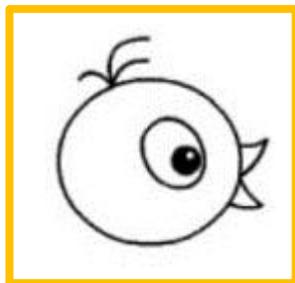

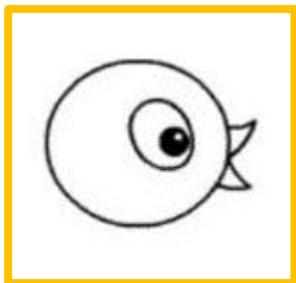

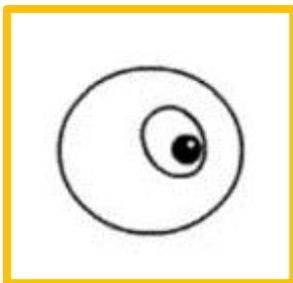

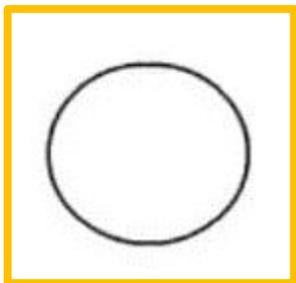

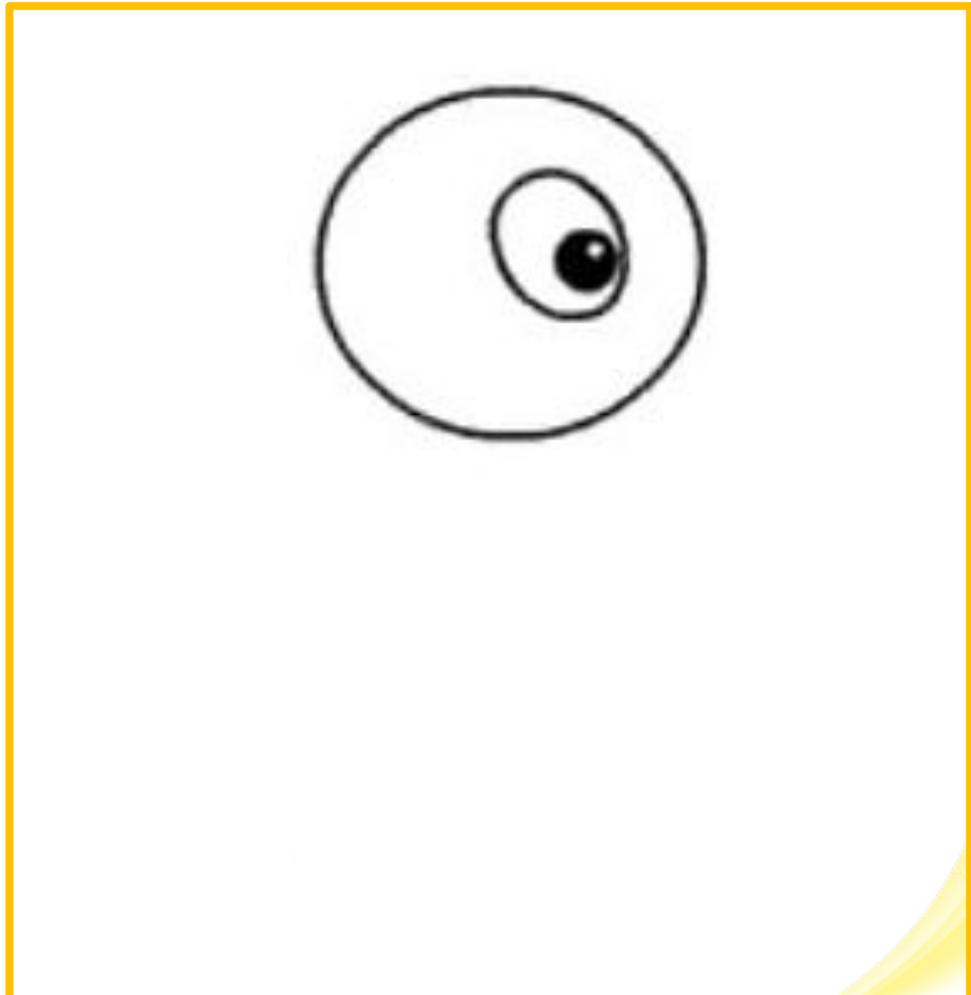

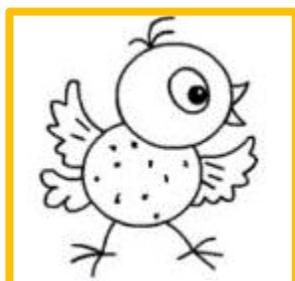

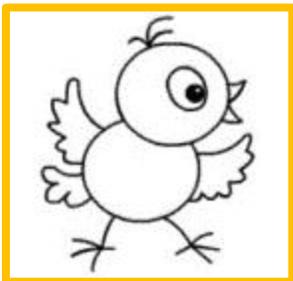

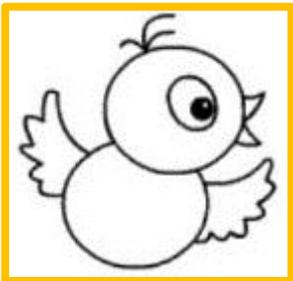

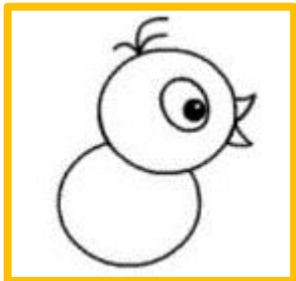

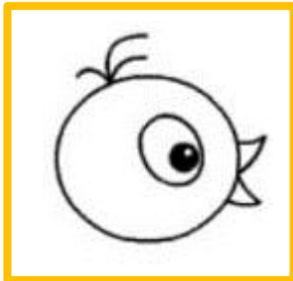

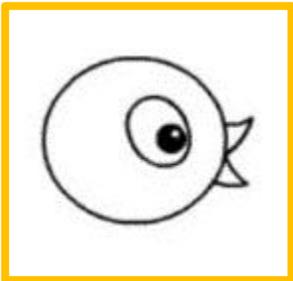

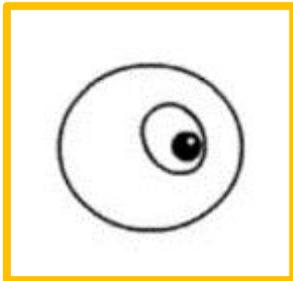

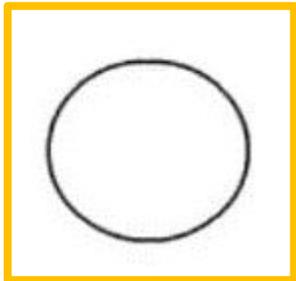

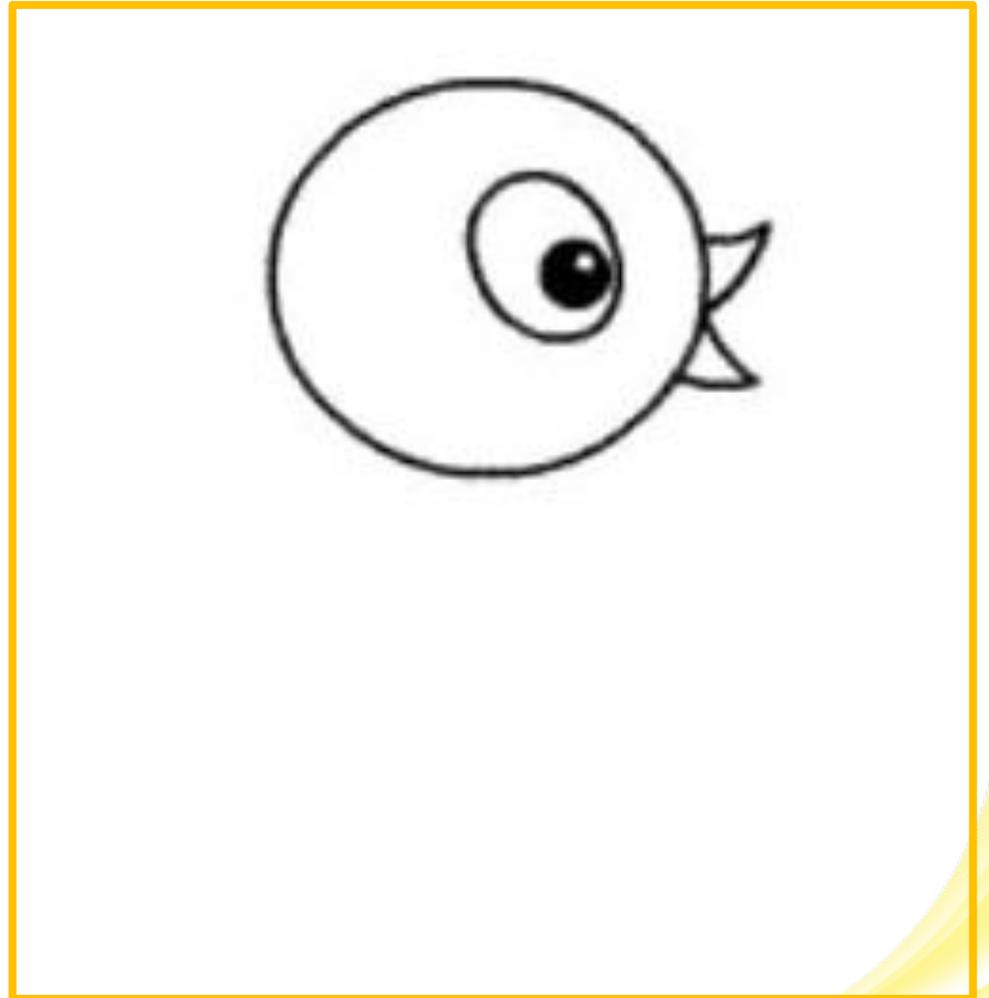

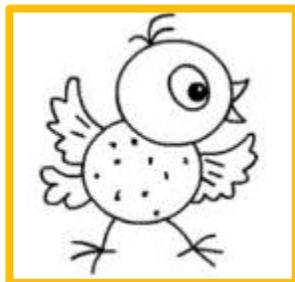

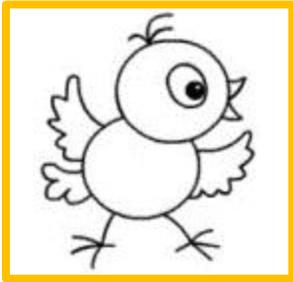

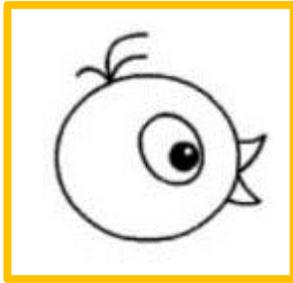

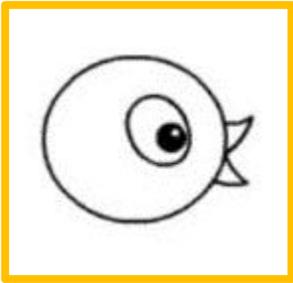

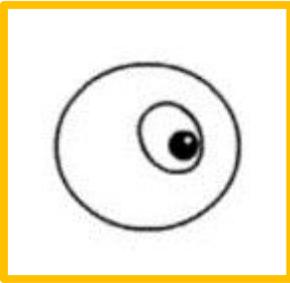

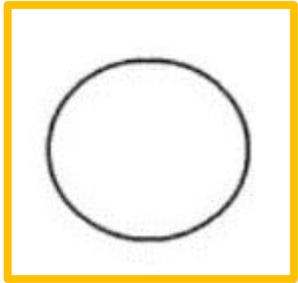

Дорогой друг!

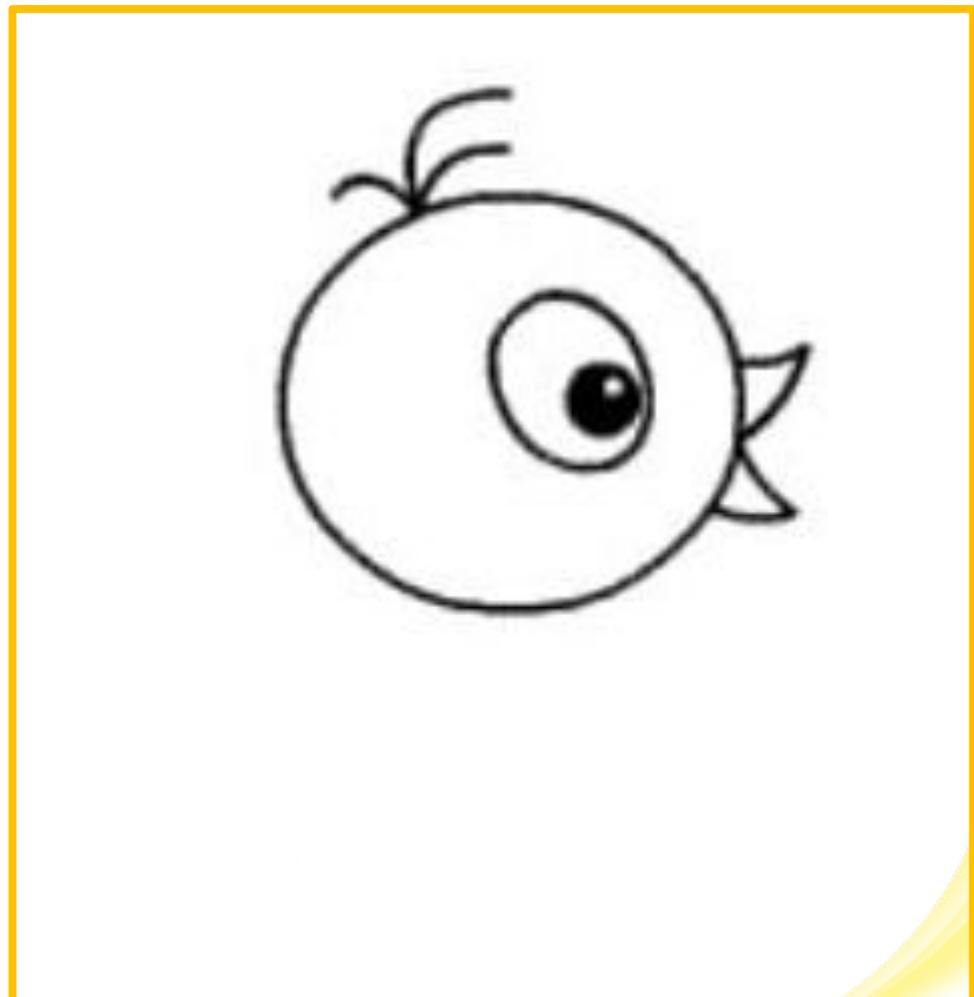

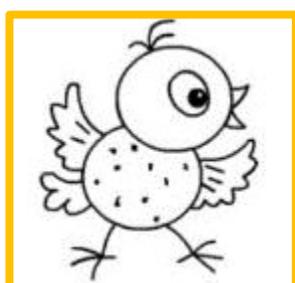

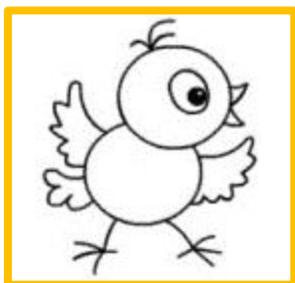

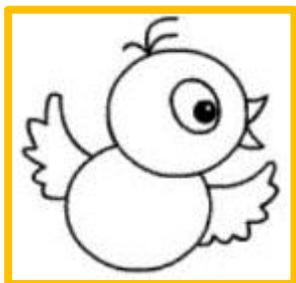

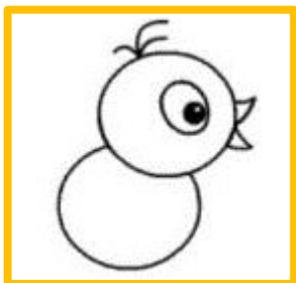

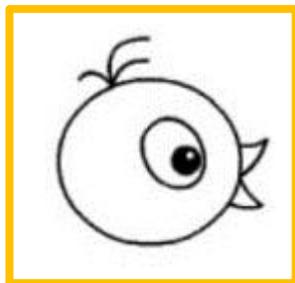

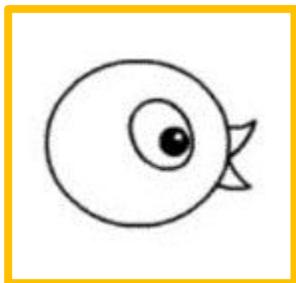

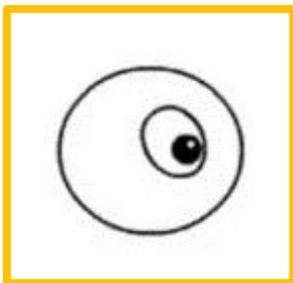

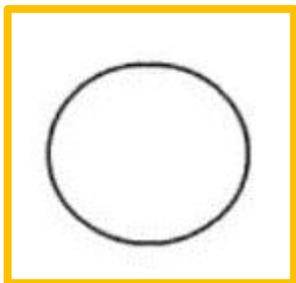

Не знаешь, как нарисовать цыплёнка?

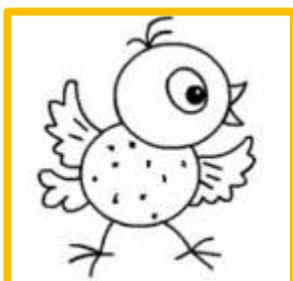

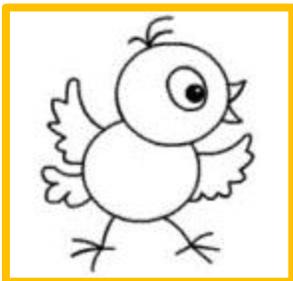

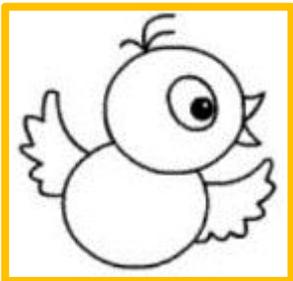

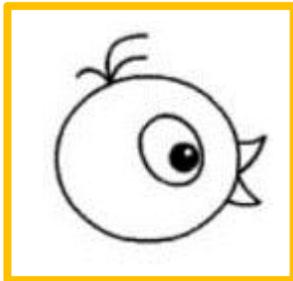

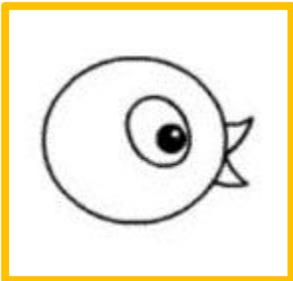

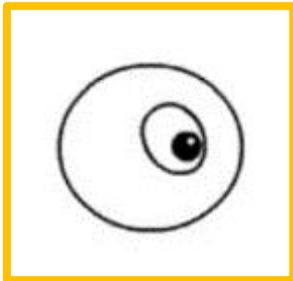

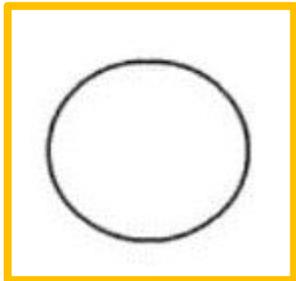

Не отчаивайся! Возьми в руки карандаш. Помни, рисовать нужно плавно, легкими штрихами, едва касаясь бумаги, так как часть линий у нас будет вспомогательными, и в конце работы нам придется их стереть. Итак, приступим к обучению поэтапного рисования. Для этого нажимай на маленькие картинки и рисуй.
Желаю удачи!
