

# The Faculty of Natural Sciences

Presentation prepared  
Panina Anastasia  
Group 5401, subgroup E1

The Faculty of Natural Sciences has six Departments. They turn out ecologists, biologists, chemists, geographers, hotel managers and tourism specialists.

Ecology is the study of interaction of living and non – living organisms and their environment.

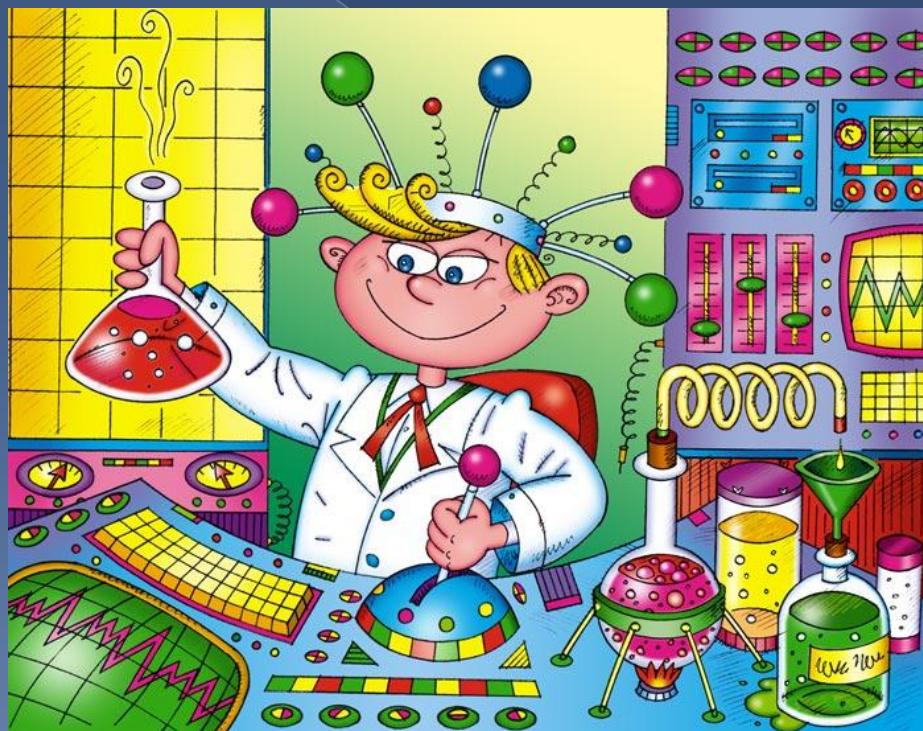

At the Chairs of special biological subjects students receive comprehensive knowledge of Nature

The Tourism Department turns out tour – operators, tourism managers, animators, guide excursionists.

Courses in organic and inorganic chemistries give would be specialist an insight into the chemical structure of animate and inanimate matter. Chemistry is the science of materials , their structure , properties and transformations.

We are studying analytical chemistry , physical and chemical methods of analysis , as well as the history and prospects of development of petrochemical industry

A specialty of the faculty is summer field practices in the most picturesque spots of Ryazan and other regions.

Students take part at the performance of Students theatre “Perechod”.
