

Make your own PowerPoint Jigsaw Puzzles

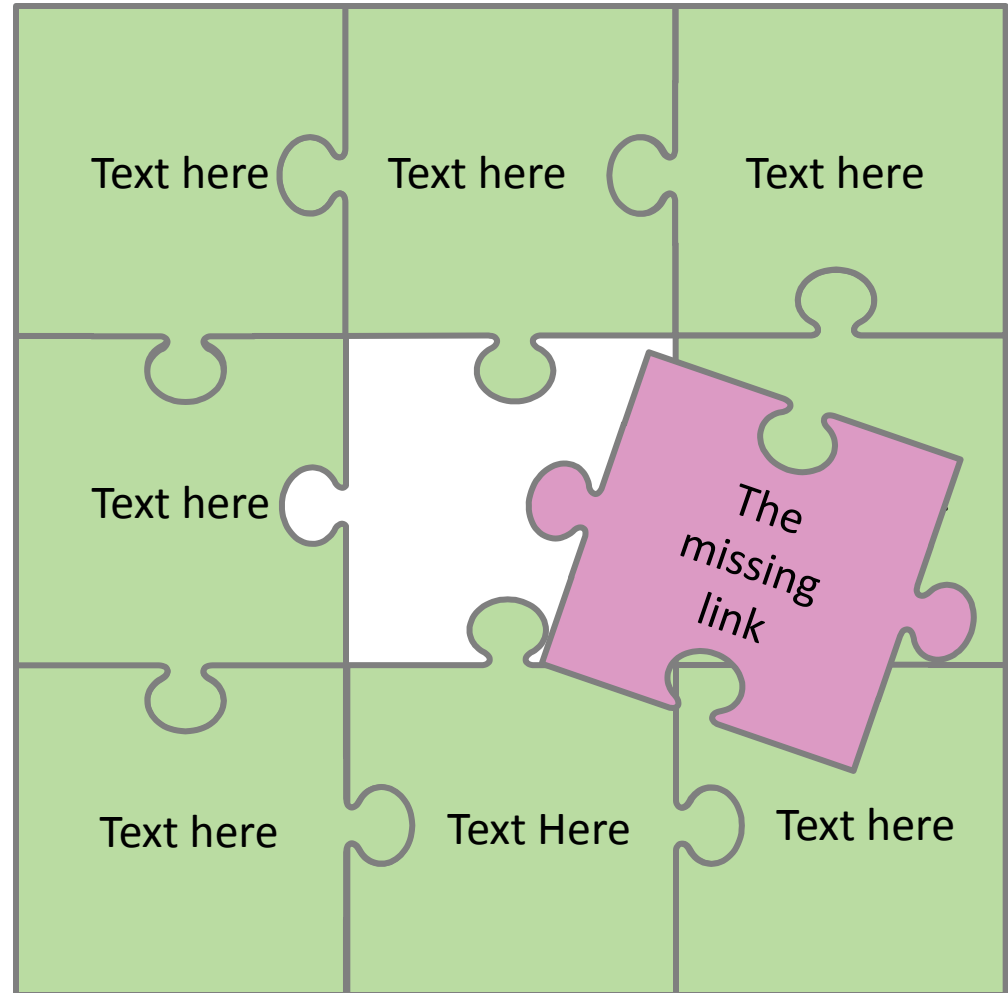

With these pieces you can make different sized jigsaws

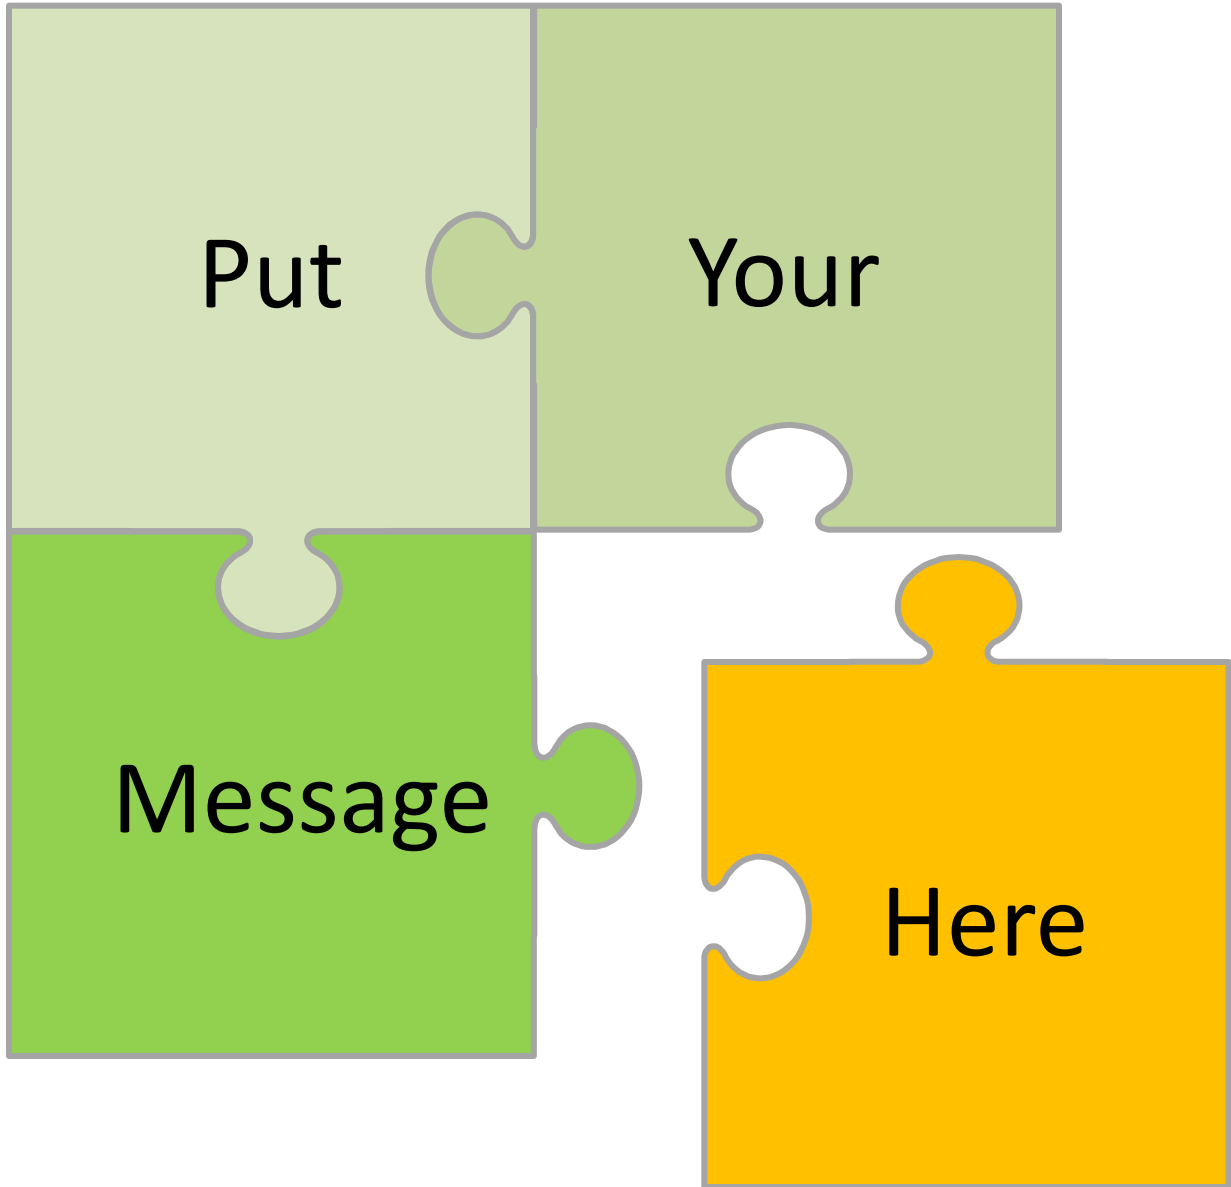

You can colour the pieces and add text and images

To add an image right click and
Format Picture > Fill >
Picture or Texture Fill

Put

Your

Message

Here

You can make a picture jigsaw

.. (but it is a bit fiddley) To start remove the
"Shape Outline"

Then lay a photo over the top and select the photo and the pieces

Then Select Drawing Tools > Merge Shape > Fragment

The screenshot displays the Microsoft PowerPoint interface. The title bar shows '00647 (1) - PowerPoint'. The ribbon includes 'DRAWING TOOLS' and 'PICTURE TOOLS', both of which are highlighted with a red box. The 'DRAWING TOOLS' ribbon is active, showing the 'Merge Shapes' option circled in red. A dropdown menu is open, listing 'Union', 'Combine', 'Fragment', 'Intersect', and 'Subtract', with 'Fragment' also circled in red. The 'Shape Styles' section shows a row of seven 'Abc' text boxes with different colored outlines. The main slide area contains the text 'Then lay a photo of the photo' and a small image of a dark, textured surface. The slide number '2' is visible in the bottom left corner.

To make a jigsaw remove the
"Shape Outline"

Cut and paste the shapes to a new slide and add in some outline
