На этом слайде я использовала рисунок из коллекции картинок Microsoft. Преобразовав его в рисунок Microsoft Office, мне удалось быстро заполнить свою вазу цветами.

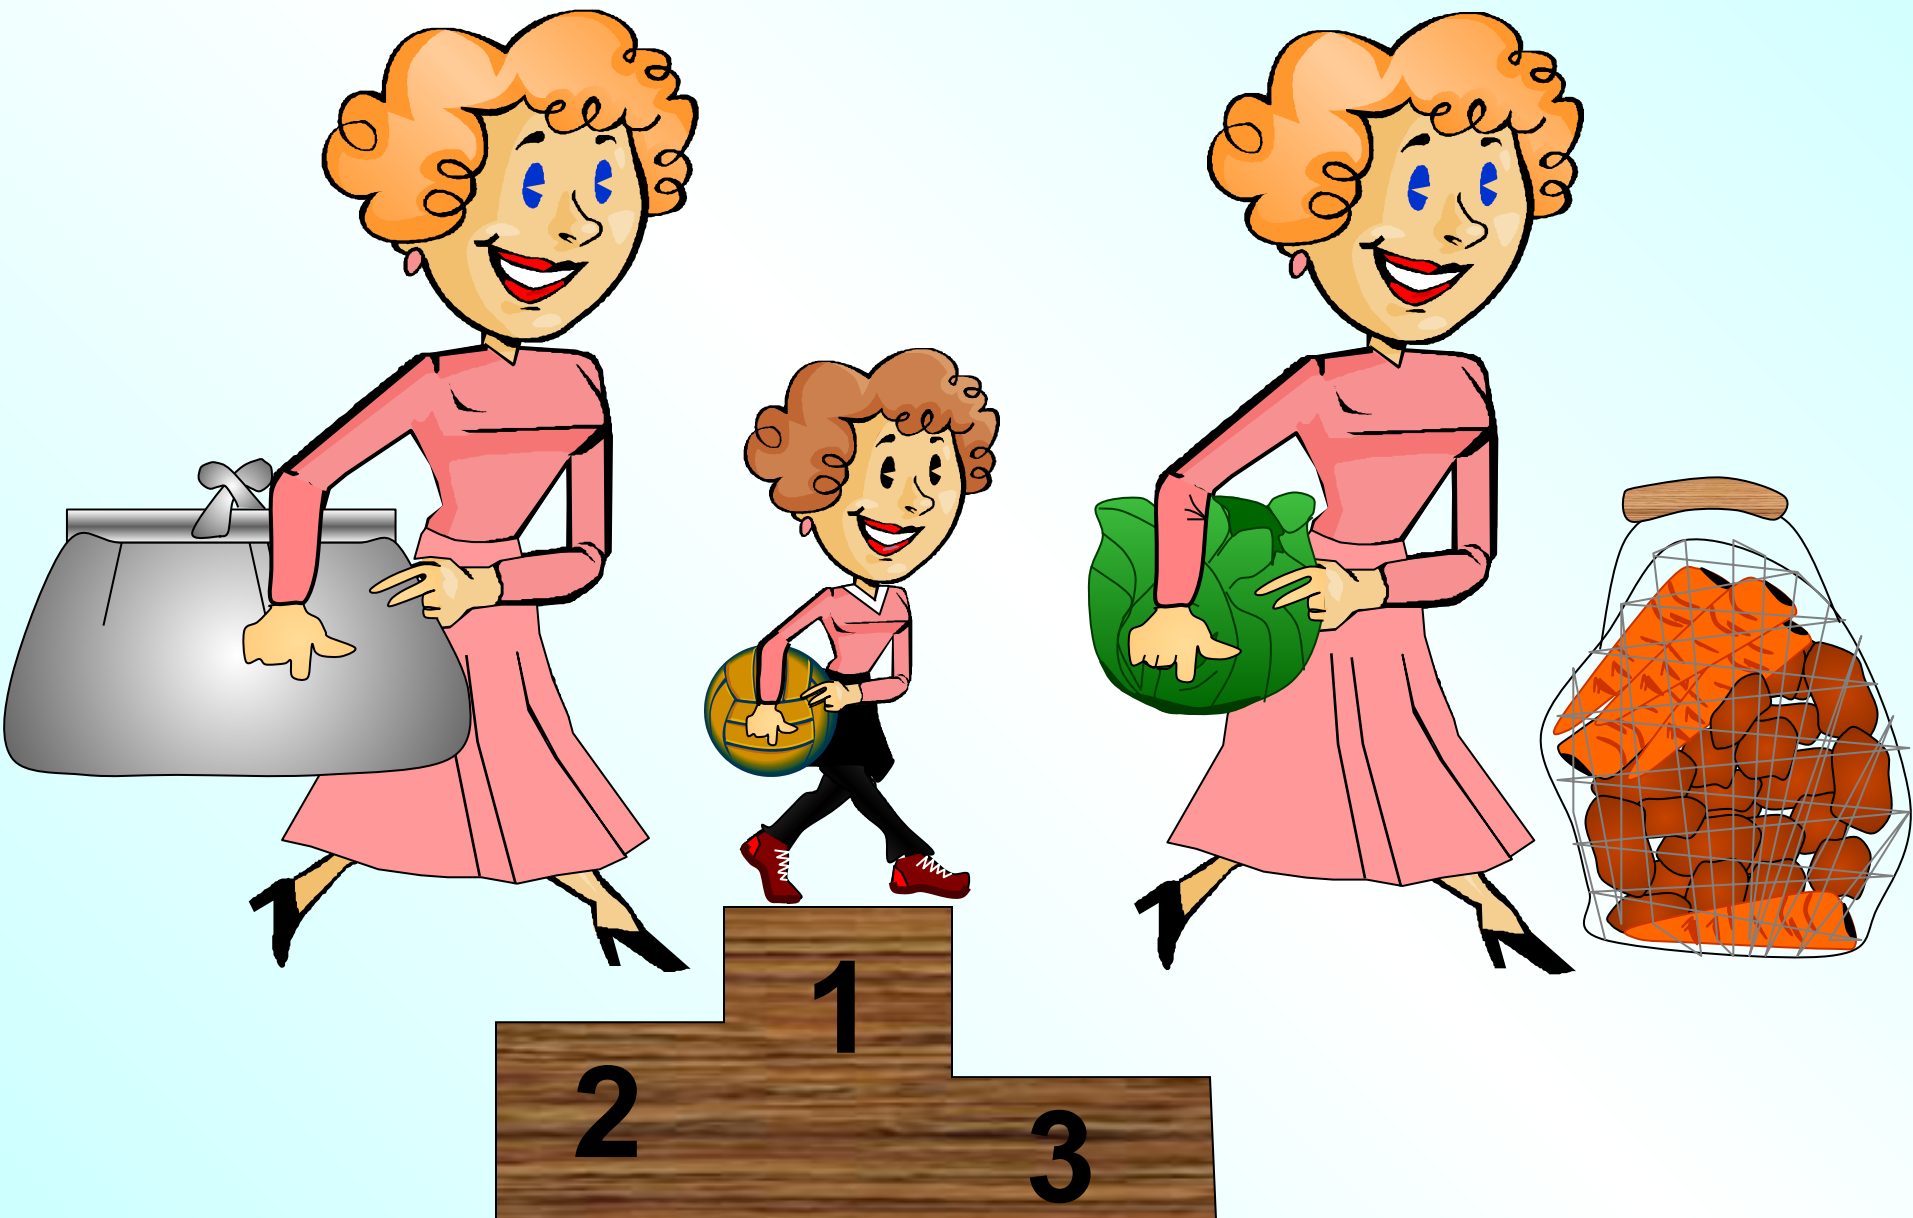

Снежинку я добывала из этой картинки

Не все картинки можно разгруппировать. Только картинки, нарисованные с помощью графических примитивов.

Эту готовую картинку я тоже разгруппировала. В разных задачах мне потребовалось «переодевать» эту красавицу. Вместо короткой юбки я нарисовала «миди». По сюжету задачи женщина была спортсменкой, хозяйкой и т.д.

На этом слайде я использовала рисунок из коллекции картинок Microsoft «Листья, осень». Преобразовав его в рисунок Microsoft Office, мне удалось получить листья для деревьев.
