# Conclusion

*«Sex education» is not just a series about the problems of adolescents, it reveals relationships between people, shows that all people have their own weaknesses and strengths, that everyone is unique in their own way. When I first started watching this show, I immediately began to associate myself with the main character – Otis. Probably because I'm just as shy and kind of «correct», which makes me a bit related to this character. I advise you to watch this show so that you can also find something in it for yourself that will help you sort out your difficulties and thoughts. Sex education is really educational and at the same time cognitive pastime.*
