

# The weather in Glazov

# Background material:

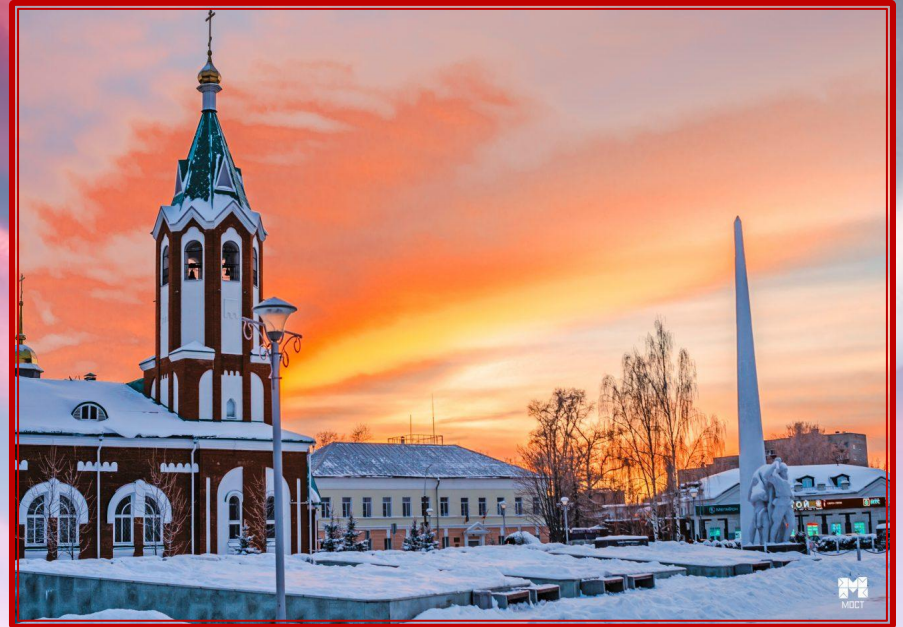

- **Drops** – опуститься, снизиться
- **Continental** - континентальный
- **Reach** - достичь
- **Frost** - мороз
- **General** - общее
- **Lowest** - низкий

It is a quite small town in the north of the Udmurt Republic. It is not far from it is capital Izhevsk. There are a lot of big and beautiful forests and clean rivers around it.

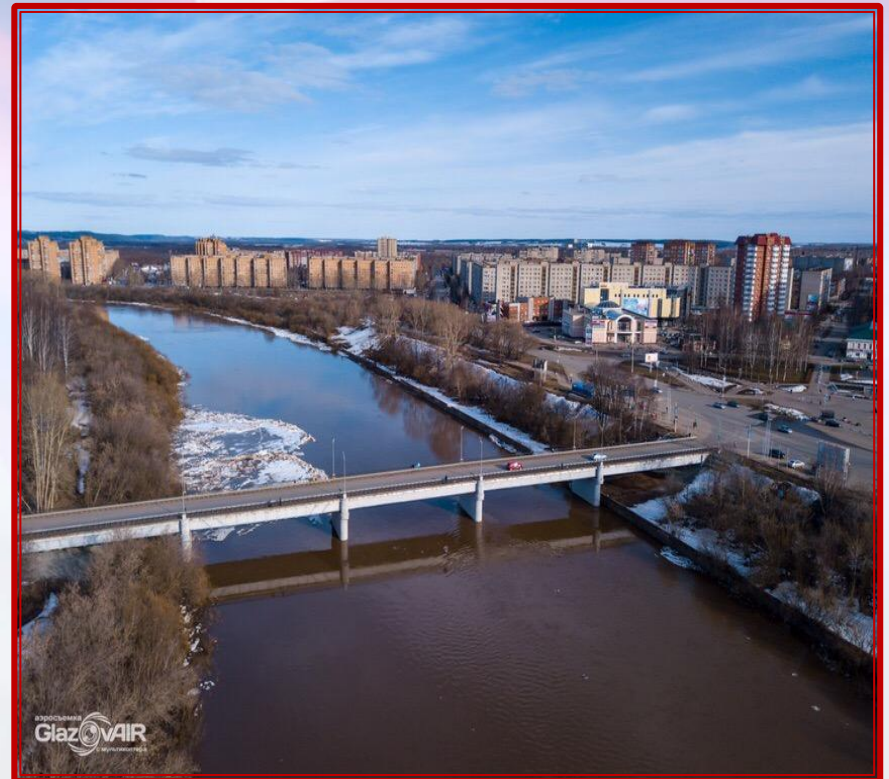

The climate is located in the temperate continental zone.

Winters are not so cold here in total, there are 2-3 weeks of frost during the winter. But in summer the weather is very hot. In 1 day the temperature can reach +35 and the next day it drops to 19-20 degrees.

The warmest weather in Glazov by month and in general in Russia is in June, July and August up to +23,4. At the same time, the lowest ambient temperature is observed in December, January and February to -11,2.

The background of the slide is a close-up, slightly blurred image of the American flag, showing the red and white stripes and the blue field with white stars. The flag is draped and appears to be in motion, with soft lighting creating highlights and shadows on the fabric.

**That is all I wanted to tell you  
about the weather in Glazov.**

**Thanks for your attention**
